1.0 Executive Summary

Prime Angling Tackle House, LLC is being established as a United States-based importer, distributor, and retailer of premium sport-fishing tackle and nautical accessories, headquartered in Orlando, Florida, and affiliated with Sea Fishing Brasil - Comercio, Importacao e Exportacao Ltda., a Brazilian importer and distributor of premium fishing tackle founded in 2017 and owned and led by Mr. Carlos Augusto Nogueira Filho. The U.S. company has been created to bring exclusive, high-quality imported fishing reels, rods, artificial lures, technical apparel, thermal products, bags, and nautical accessories to the world's largest premium sport-fishing market, supported by the supplier relationships, product expertise, and brand-building methodologies developed over more than eight years by its affiliated Brazilian operation.

The company will operate as a specialized omnichannel business, supplying individual anglers, tackle retailers, marine outfitters, and professional fishing teams that demand reliable access to premium imported tackle and responsive, knowledgeable service. Prime Angling Tackle House, LLC will combine curated product selection, competitive sourcing, and applied technical knowledge to serve a market characterized by sustained demand driven by high recreational-fishing participation, the premiumization of tackle, and the rapid migration of sporting-goods purchasing to direct-to-consumer and online-marketplace channels across the United States.

Prime Angling Tackle House, LLC's business model is structured around four core lines of activity: direct-to-consumer e-commerce retail; online marketplace sales; wholesale and business-to-business distribution; and brand development through a professional-team and ambassador program. These lines reflect the proven operating model of the affiliated Brazilian company and are fully transferable to the U.S. operation, allowing the company to begin activities with established supplier relationships, a curated product portfolio, and a tested brand-building playbook rather than developing them from inception.

The company will be headquartered in Orlando, Florida, a strategic logistics and recreational-fishing hub and the host city of ICAST, the world's largest sportfishing trade show. Mr. Carlos Augusto Nogueira Filho will serve as Executive Director, providing executive leadership and overall direction of the U.S. operation, including strategic planning, supplier and customer relationships, financial oversight, and the structured transfer of import, distribution, product-curation, pricing, and influencer-driven brand-building methodologies from the affiliated Brazilian operation. Day-to-day commercial, fulfillment, and administrative execution will be performed by a dedicated U.S.-based team and contracted partners operating under his supervision.

The company will be capitalized with an initial investment of $50,000, allocated to initial inventory, logistics and third-party-fulfillment setup, the e-commerce platform, launch

marketing and trade-show participation, company formation and professional fees, and working capital. Revenue is projected to grow from $520,000 in Year 1 to $2,720,000 by Year 5, with net profit increasing from $7,900 in Year 1 to $220,284 by Year 5, while the workforce expands from four employees in Year 1 to ten by Year 5. By leveraging established supplier relationships, a proven product portfolio, and disciplined commercial management, Prime Angling Tackle House, LLC is positioned to build a sustainable distribution and retail business in the United States, support the domestic recreational-fishing economy, and create skilled employment opportunities in the U.S. market.

1.1 The Market

The United States is the largest recreational-fishing market in the world and one of the most attractive environments globally for premium sport-fishing tackle and nautical accessories. Recreational fishing is deeply embedded in American outdoor culture, supported by an extensive network of coastlines, lakes, and rivers, a large and growing base of participants, and a strong tradition of investment in quality equipment.

According to industry research, recreational fishing generates more than $140 billion in annual economic output in the United States and supports approximately 55 million anglers, making it one of the country's most significant outdoor-recreation sectors.[1] Annual fishing participation now exceeds 50 million people, with sustained growth among younger and first-time anglers and a pronounced shift toward online purchasing of tackle and gear, conditions that favor a curated, omnichannel premium retailer.[2]

The market for fishing tackle and equipment itself is substantial and expanding. The U.S. fishing-tackle and equipment market is estimated in the multiple billions of dollars and is projected to grow at a steady single-digit compound annual rate through the end of the decade, driven by rising participation and a clear trend toward premiumization, as experienced anglers increasingly invest in higher-performance reels, rods, and lures.[3] This premiumization trend is precisely the segment in which the company and its affiliated Brazilian operation specialize, importing exclusive premium brands rather than competing on commodity price.

Florida occupies a singular position within this market. The state is widely recognized as the Fishing Capital of the World and generates the largest recreational-fishing economic impact of any U.S. state, contributing well over $13 billion annually and supporting more than 120,000 jobs, with year-round saltwater and freshwater angling that sustains continuous demand for tackle and nautical accessories.[4] Orlando, the company's chosen base, sits at the center of this market and hosts ICAST, the sportfishing industry's premier global trade show.[5]

Demand is further reinforced by the structural migration of sporting-goods purchasing toward direct-to-consumer and online-marketplace channels. Online sales now account for a rapidly rising share of U.S. sporting-goods and outdoor-recreation revenue, with specialty premium categories shifting to digital channels faster than the broader retail average.[6] This shift allows a focused, digitally native premium retailer to reach anglers nationwide without the fixed cost of a large physical store network.

Within this environment, anglers, retailers, and professional teams require suppliers capable of providing exclusive, certified, premium products with reliable availability, knowledgeable support, and an authentic brand identity. Prime Angling Tackle House, LLC, supported by the supplier relationships and brand-building expertise of its affiliated Brazilian operation, is positioned to serve this demand with a curated portfolio of premium imported tackle and a community-driven brand presence.

1.2 The Company

Prime Angling Tackle House, LLC is a newly established import, distribution, and retail company formed in the United States, effective March 11, 2026, and affiliated with Sea Fishing Brasil - Comercio, Importacao e Exportacao Ltda., a Brazilian importer and distributor with extensive experience in the importation and nationwide distribution of premium fishing tackle. Both companies are controlled by Mr. Carlos Augusto Nogueira Filho, who holds approximately 95 percent of the equity of each, establishing a qualifying parent-subsidiary relationship. The U.S. entity was created to replicate the affiliated company's proven import, distribution, and brand-building model within the American market.

Headquartered in Orlando, Florida, Prime Angling Tackle House, LLC will operate as a supplier of premium reels, rods, artificial lures, technical apparel, thermal products, bags, and nautical accessories to individual anglers, tackle retailers, marine outfitters, and professional fishing teams operating in the United States. The company will support clients that require reliable access to exclusive, high-quality products, competitive pricing, and authentic product knowledge to pursue recreational and competitive fishing.

Prime Angling Tackle House, LLC's business model is based on the import, inventory, and omnichannel sale of premium fishing tackle, complemented by a structured brand-development and ambassador program. The company will combine exclusive sourcing through long-standing premium Japanese suppliers and qualified manufacturers with disciplined inventory management, value-based pricing, and a community-driven brand presence, allowing it to deliver consistent product availability, authenticity, and quality to a growing customer base.

The company delivers its offering through four core lines of activity that directly reflect the activities and expertise of the affiliated Brazilian company:

- Direct-to-Consumer E-commerce Retail, selling premium tackle and nautical accessories directly to anglers through the company's own online store;
- Online Marketplace Sales, distributing the company's curated product portfolio through established third-party marketplaces;
- Wholesale and Business-to-Business Distribution, supplying tackle retailers, marine outfitters, and resellers;
- Brand Development and Professional-Team / Ambassador Program, building demand and authenticity through professional anglers, content, and an influencer community.

To support its operations, Prime Angling Tackle House, LLC will implement a phased hiring plan aligned with sales growth and operational requirements. In Year 1, the company will operate with a focused team of four employees:

- Executive Director - Mr. Carlos Augusto Nogueira Filho;
- Commercial Manager;
- Sales Representative (1);
- Sales Representative (1).

As operations expand, additional commercial, finance, logistics, and customer-support roles will be added. By Year 5, the workforce is projected to reach ten employees, consisting of an Executive Director, a Commercial Manager, a Finance and Logistics Coordinator, three Sales Representatives, a Customer Support Specialist, and three Regional Sales Representatives. Field and contract functions, including third-party-logistics fulfillment, social-media management,

and brand ambassadors and influencers, are contracted rather than carried on payroll. This staffing structure reflects the operational needs of a growing omnichannel distribution and retail company and aligns with the personnel plan and payroll projections presented in this plan.

Mr. Carlos Augusto Nogueira Filho will serve as Executive Director of Prime Angling Tackle House, LLC. His role is executive and managerial in nature and includes strategic planning, supplier and customer relationship management, financial oversight, supervision of commercial and operational staff, and the transfer of import, distribution, product-curation, pricing, and brand-building methodologies developed through the affiliated Brazilian company to the U.S. operation. Day-to-day commercial execution, order fulfillment, logistics, social-media management, and administrative activities will be performed by professional staff and contracted partners under his direction.

1.3 Mr. Carlos Augusto Nogueira Filho's Expertise

Mr. Carlos Augusto Nogueira Filho is a commercial and entrepreneurial executive with more than two decades of professional experience in international trade, commercial leadership, and the building and direction of import and distribution operations. His career has been defined by commercial discipline, deep knowledge of international sourcing, and a proven ability to build brands and distribution networks, providing the foundation upon which Prime Angling Tackle House, LLC will establish its operation in the United States.

Mr. Nogueira Filho holds a Bachelor's Degree in Mechanical Production Engineering from Centro Universitario Nove de Julho (UNINOVE), concluded in approximately 2005. The analytical and process-oriented training of this engineering background underpins his rigorous approach to sourcing, inventory management, pricing, and operational control, complementing the commercial expertise he has accumulated over his career.

For more than twenty years before founding Sea Fishing Brasil, Mr. Nogueira Filho built a senior commercial career in the Brazilian steel and industrial sector, holding commercial leadership positions at major industrial groups including Companhia Siderurgica Nacional (CSN) and Usiminas. In these roles he managed large commercial portfolios, negotiated complex domestic and international contracts, directed sales teams, and developed extensive expertise in international trade, supply-chain coordination, and business-to-business commercial management within demanding, high-volume industrial environments.

In 2017, Mr. Nogueira Filho founded Sea Fishing Brasil, where he serves as Chief Executive Officer, sole executive, and approximately 95 percent owner. Under his leadership, the company has grown into a recognized importer and distributor of exclusive premium Japanese fishing brands, generating annual revenue of approximately R$5,000,000, equivalent to roughly USD 1,000,000, with about five direct employees and a network of regional representatives

distributing nationwide across Brazil. He personally established and maintains supplier relationships with premium Japanese manufacturers spanning more than eight years, directs the company's product curation and pricing, and built its commercial and distribution structure from inception.

Beyond distribution, Mr. Nogueira Filho conceived and directs Sea Fishing Brasil's media brand, FishOn, and its influential professional-staff and ambassador community, reflected in the company's strong digital presence and a recognized brand identity. He has developed and refined a complete brand-building methodology centered on professional anglers, content production, and an engaged influencer community, transforming product distribution into an authentic, demand-generating brand, a capability that is directly transferable to the U.S. market and a core differentiator of the new operation.

This trajectory has given Mr. Nogueira Filho deep, practical expertise in international trade and importation, premium fishing-tackle product knowledge, value-based pricing, supplier and customer relationship management, and influencer-driven brand-building across both business-to-consumer and business-to-business channels. As Executive Director of Prime Angling Tackle House, LLC, he will apply this expertise to the U.S. market, directing the company's strategy, supplier and customer relationships, pricing, and brand identity while overseeing the structured transfer of proven methodologies from the affiliated Brazilian operation.

Mr. Nogueira Filho is a native Portuguese speaker with experience operating in international commercial environments and managing relationships with foreign suppliers. His professional profile is defined by commercial leadership, international-trade expertise, and a consistent record of building and directing companies in competitive sectors, qualities that position him to establish and grow Prime Angling Tackle House, LLC as a credible premium tackle distributor and retailer in the United States.

1.3.1 Knowledge Transfer and Integration with the Brazilian Affiliated Company

A central element of Prime Angling Tackle House, LLC's U.S. market-entry strategy is the structured transfer of commercial, operational, and brand-building expertise from its Brazilian affiliated company, Sea Fishing Brasil, to the newly established U.S. operation. Over more than eight years of continuous operation, the Brazilian entity, under the leadership of Mr. Carlos Augusto Nogueira Filho, has developed mature and well-tested methodologies for premium-tackle importation, distribution, product curation, pricing, and influencer-driven brand-building.

This accumulated expertise includes exclusive supplier relationships with premium Japanese manufacturers cultivated over more than eight years, detailed knowledge of premium reels, rods, lures, and nautical accessories, disciplined inventory and pricing practices, and a complete playbook for building an authentic brand and ambassador community. These capabilities form

the operational foundation of Prime Angling Tackle House, LLC's model in the United States and allow the U.S. operation to begin activities with proven products, established sourcing, and a tested brand strategy rather than developing these elements from the ground up.

The qualifying relationship between the two companies, both controlled by Mr. Nogueira Filho, provides the U.S. operation with immediate access to this base of knowledge and to the group's supplier network, product expertise, and brand-building capability. Mr. Nogueira Filho will personally lead the adaptation of these methodologies to United States market conditions, customer expectations, and regulatory and logistics requirements, drawing on his direct, hands-on experience building and directing the Brazilian operation.

During the initial stages of operation, the Brazilian affiliated company will support the U.S. operation through the provision of supplier introductions, product documentation, curation criteria, pricing frameworks, and brand and content methodologies. The company is already advancing this integration in practice: the U.S. entity has been formed, initial purchases have been made, the e-commerce store and marketplace presence are being launched, a third-party-logistics warehouse has been contracted, and Mr. Nogueira Filho will attend ICAST in Orlando to expand the company's supplier base for the U.S. market.

Through this transfer of knowledge and the close coordination between the two operations, Prime Angling Tackle House, LLC is able to combine the experience, supplier relationships, and brand strength of an established operation with the agility of a focused U.S. company, positioning it to deliver curated premium products and to grow sustainably in the United States recreational-fishing market.

1.4 Company's Economic Benefits

Prime Angling Tackle House, LLC is projected to generate sustainable economic benefits during its first five years of operations by serving the growing demand in the United States for premium sport-fishing tackle and nautical accessories. In addition to direct financial performance, Prime Angling Tackle House, LLC is expected to contribute to the U.S. economy through tax generation and employment:

3.2 Major Market Segmentation

The company's market can be segmented by customer type and channel. Prime Angling Tackle House, LLC focuses on the premium segment of the recreational-fishing market, serving multiple customer groups through complementary channels. The principal segments are:

- Individual recreational and competitive anglers purchasing premium tackle directly through the company's e-commerce store;
- Online-marketplace shoppers who purchase premium tackle through established third-party platforms;
- Tackle retailers, marine outfitters, and resellers requiring wholesale supply of exclusive premium brands;
- Professional fishing teams and ambassadors who use, promote, and validate the company's premium products.

The company's initial focus is the direct-to-consumer and online-marketplace segments, which generate its primary Year-1 revenue, complemented by an early wholesale presence. As the operation matures and the commercial team and supplier base expand, the company will deepen its wholesale distribution and broaden its ambassador program, diversifying its revenue base and reinforcing its position as an integrated premium-tackle provider.

This segmentation allows Prime Angling Tackle House, LLC to concentrate its initial resources on clearly defined, high-value segments, premium direct-to-consumer and marketplace sales, while preserving the flexibility to expand into wholesale distribution and brand-driven activity that draw on the same exclusive sourcing and inventory.

3.3 Business Location

Prime Angling Tackle House, LLC is headquartered in Orlando, Florida, at the center of the largest recreational-fishing market in the United States. The choice of location is central to the company's strategy and provides a series of competitive advantages:

- Location within Florida, the Fishing Capital of the World and the largest recreational-fishing market of any U.S. state;
- A strong logistics and distribution infrastructure supporting efficient nationwide fulfillment;
- Proximity to ICAST, the world's largest sportfishing trade show, held annually in Orlando;

- A large, year-round angling population and a dense base of retailers, marinas, and outfitters;
- A favorable business and tax environment, including the absence of a state personal income tax;
- Access to a deep pool of commercial, marketing, and logistics talent.

Orlando's position as the host city of ICAST is of particular strategic value to the company. The trade show provides direct access to premium manufacturers, new product lines, and industry buyers, supporting the company's objective of continuously expanding its exclusive supplier base for the U.S. market. The company's proximity to the event allows it to build supplier relationships efficiently and to remain at the forefront of premium product trends.

This location positions the company to source premium products efficiently, fulfill orders nationwide through contracted logistics, and engage Florida's large angling community directly. As the company grows, its Orlando base provides a strong platform from which to expand its retail, marketplace, and wholesale activity throughout the United States.

3.4 Competitors

The United States fishing-tackle market is served by a broad range of providers, including large national outdoor retailers, specialized tackle e-commerce stores, and independent local shops. Competitors vary significantly in scale, product focus, and the degree to which they offer exclusive premium products and an authentic brand presence.

While competition exists across the market, much of it is concentrated in broad, price-led mass-market retail, leaving room for a focused provider of exclusive premium imported tackle supported by a community-driven brand. The principal categories of competitors are described below.

1. National Outdoor and Sporting-Goods Retailers

Large national retailers such as Bass Pro Shops, Cabela's, and West Marine sell fishing tackle and marine accessories at scale across physical and online channels, benefiting from brand recognition and purchasing power. However, they typically emphasize broad, mass-market assortments rather than the curated, exclusive premium brands and authentic angler community that the company targets.

2. Specialized Tackle E-commerce Retailers

Specialized online retailers such as Tackle Warehouse focus on fishing tackle and offer deep catalogs to enthusiast anglers. These competitors compete directly in the company's e-commerce segment, but vary in their access to exclusive premium imported brands and in the strength of their brand and ambassador presence.

3. Independent Local Tackle Shops

Independent local shops serve regional angling communities with personalized service and local knowledge. These competitors offer proximity and relationships, but typically lack the scale, exclusive premium sourcing, and omnichannel reach of a focused premium distributor and retailer.

Prime Angling Tackle House, LLC's Competitive Position

Prime Angling Tackle House, LLC differentiates itself by combining exclusive premium imported brands with an authentic, community-driven brand and the proven distribution methodology of an established affiliated operation. Its key competitive advantages include:

- Exclusive access to premium Japanese brands through long-standing supplier relationships;
- A curated premium portfolio rather than a broad, commodity assortment;
- An authentic professional-team and ambassador program that generates demand;
- An efficient omnichannel model spanning direct-to-consumer, marketplace, and wholesale;
- Value-based pricing supporting a blended gross margin of approximately 40 percent;
- Experienced executive leadership with deep international-trade and brand-building expertise.

This competitive landscape, characterized by broad price-led retail alongside strong, durable demand for premium products, creates a favorable environment for Prime Angling Tackle House, LLC to establish itself as a trusted source of exclusive premium tackle in the United States.

4.0 Strategy and Implementation

Prime Angling Tackle House, LLC will implement its strategy by launching its omnichannel sales operation with a curated portfolio of exclusive premium products, building an authentic brand presence, and progressively expanding its supplier base, customer relationships, and wholesale distribution. The company's implementation approach is built on disciplined commercial execution and controlled growth.

The company's strategic priorities are:

- Build an authentic professional-team and ambassador program to generate demand;
- Expand the exclusive supplier base through ICAST and direct supplier engagement;
- Develop wholesale and business-to-business distribution as the operation matures;
- Maintain disciplined control of sourcing, pricing, inventory, and cost.

This phased approach allows the company to establish a market presence and generate revenue from its first year through its retail and marketplace channels, while building the brand, supplier base, and wholesale relationships required for sustainable, long-term growth.

5.1 Sales Forecast

The company's five-year sales forecast is based on the growth of its three sales channels, direct-to-consumer e-commerce, online marketplaces, and wholesale and business-to-business distribution, supported by an expanding supplier base and a strengthening brand presence. The forecast reflects the company's omnichannel model, in which the same exclusive inventory is sold across multiple channels and proceeds are reinvested into inventory, marketing, and brand development.

The company projects total revenue of $520,000 in Year 1, growing to $990,000 in Year 2, $1,560,000 in Year 3, $2,140,000 in Year 4, and $2,720,000 by Year 5, as the company scales its e-commerce and marketplace presence, expands its supplier base through ICAST, and develops its wholesale channel. Direct-to-consumer e-commerce and online marketplaces provide the company's primary revenue in the early years, while wholesale and business-to-business distribution grows in importance as the operation matures.

Cost of goods sold is projected at approximately 60 percent of revenue across the channels, yielding a blended gross margin of approximately 40 percent. This margin reflects the company's exclusive premium sourcing, supplier credit, and value-based pricing, and is consistent with prevailing margins for curated premium tackle sold through omnichannel retail. On this basis, gross profit is projected to grow from $208,000 in Year 1 to $1,081,600 by Year 5, with the breakdown by channel summarized in the table and chart below.

5.2 Pricing Methodology

Prime Angling Tackle House, LLC applies a disciplined, value-based pricing methodology that reflects the exclusivity, quality, and performance of its premium products while remaining competitive within the U.S. recreational-fishing market. Prices are established by analyzing three core variables: the total landed cost of each product, including the purchase price from premium suppliers, import duties, freight, and fulfillment; the prevailing market prices for comparable premium tackle across retail, marketplace, and wholesale channels; and the target gross margin required to sustain the company's growth, brand investment, and reinvestment plan.

Across the company's channels, cost of goods sold is projected at approximately 60 percent of revenue, producing a blended gross margin of approximately 40 percent, which is the margin used to construct the financial projections. Direct-to-consumer e-commerce typically carries the strongest margin, marketplace sales reflect platform fees, and wholesale carries a lower per-unit margin offset by higher recurring volume; the blended result is a sustainable 40 percent gross margin across the portfolio. For wholesale and business-to-business accounts, pricing follows a structured approach that combines landed cost with a target margin appropriate to volume and account terms. Management reviews the company's pricing on a semi-annual basis, adjusting for changes in landed cost, exchange rates, freight, demand, and competitive conditions, so that the blended gross margin assumed in the financial projections remains realistic and sustainable throughout the five-year period.

6.0 Management Structure

Prime Angling Tackle House, LLC will be directed by its Executive Director, Mr. Carlos Augusto Nogueira Filho, who holds full executive authority over the U.S. operation and reports only to the ownership and board of the affiliated group. The company will be organized into clear functional areas, commercial and sales, finance and logistics, and customer support, each led by a manager or professional reporting to the Executive Director.

Contracted partners, including third-party-logistics fulfillment, social-media management, and brand ambassadors and influencers, perform field and specialized functions under the company's direction rather than as salaried staff. This structure ensures that Mr. Nogueira Filho directs the company through a subordinate team of managers and professionals rather than performing routine operational tasks himself, and allows the company to scale without carrying a large fixed cost base.

6.1 Staffing Requirements

Prime Angling Tackle House, LLC will implement a phased staffing plan structured to support the progressive development of its omnichannel distribution and retail operation in the United States. Workforce expansion is directly aligned with sales growth, channel development, and operational demand, while preserving managerial oversight and cost efficiency during the initial years of operation.

Under the leadership of Mr. Carlos Augusto Nogueira Filho, the company will begin operations with a lean team of four salaried professionals in Year 1 and will gradually expand to a total of ten employees by Year 5. Field and specialized functions, including third-party-logistics fulfillment, social-media management, and brand ambassadors and influencers, are contracted

rather than carried on payroll. The Year-1 hires are scheduled across the year as follows, and from Year 2 onward all roles are counted from month one of the year in which they are added.

Personnel Plan Overview

Executive Director - Mr. Carlos Augusto Nogueira Filho (Month 1): Mr. Nogueira Filho will serve as Executive Director from inception in month one, maintaining responsibility for strategic direction, supplier and customer relationships, capital allocation, governance, and supervision of all functional areas, with a base compensation of $84,000 in Year 1.

Staffing Strategy Rationale: This personnel structure supports a controlled and scalable operating model, beginning with core executive, commercial, and sales roles in the early years and progressively incorporating finance, logistics, customer-support, and regional sales functions as the company's sales volume and wholesale activity expand. The salaried workforce grows from four employees in Year 1 to ten by Year 5, while contracted partners provide fulfillment, content, and ambassador functions.

The phased hiring approach allows Mr. Carlos Augusto Nogueira Filho to maintain a primarily executive and managerial role focused on strategic oversight, supplier and customer relationships, and business development, while delegating commercial execution, finance, logistics, customer support, and contracted functions to specialized professionals and partners.

This model promotes operational stability, service quality, and sustainable long-term growth within the U.S. recreational-fishing market.

7.0 Financial Summary

The financial projections for Prime Angling Tackle House, LLC reflect a disciplined omnichannel distribution and retail model supported by $50,000 of paid-in equity, supplier credit, and no external debt. Revenue is projected to grow from $520,000 in Year 1 to $2,720,000 by Year 5, with net profit increasing from $7,900 to $220,284 over the same period and net margins strengthening from 1.5 percent to 8.1 percent as the company achieves scale. The assumptions and supporting tables and charts are presented in the following subsections. These projections are internally derived from the company's operating model and assumptions and are not drawn from a single external source.

7.1 Break-even Analysis

The break-even analysis estimates the level of monthly revenue required to cover the company's fixed operating costs, based on its average variable-cost ratio and estimated monthly fixed costs. Because the company's cost of goods sold represents the majority of variable cost, the variable-cost ratio is high relative to fixed operating expenses.

Based on the company's cost structure, the estimated monthly revenue break-even is approximately $41,250, against an average variable-cost ratio of approximately 60 percent and estimated monthly fixed costs of approximately $16,500. The company's projected revenue exceeds this break-even level throughout the projection period, and the company operates above break-even from Year 1, reflecting the profitability of its omnichannel model.

7.1.1 Break-even Analysis Table

Break-even Analysis	
Monthly Revenue Break-even	$41,250
Assumptions:	
Average Percent Variable Cost	60.00%
Estimated Monthly Fixed Cost	$16,500

7.2 Profit and Loss Assumptions

Prime Angling Tackle House, LLC's profit and loss projections are developed using conservative and operationally grounded assumptions consistent with an omnichannel premium-tackle distribution and retail model. The projections reflect channel growth, disciplined cost control, and a phased staffing plan aligned with sales volume. Total revenue is projected to grow from $520,000 in Year 1 to $2,720,000 in Year 5, driven by the expansion of the company's direct-to-consumer, marketplace, and wholesale channels.

Revenue Assumptions: Revenue growth is based on the development of the company's three sales channels, supported by an expanding exclusive supplier base and a strengthening brand presence. The model relies on the company's own commercial activity rather than on extraordinary or one-time income.

Cost of Goods Sold: Cost of goods sold is projected at approximately 60 percent of revenue, increasing in proportion to sales, and reflects the landed cost of imported premium products, including purchase price, duties, and freight.

Gross Margin: The company maintains a consistent blended gross margin of approximately 40 percent throughout the five-year projection period. This stable margin reflects exclusive premium sourcing, supplier credit, value-based pricing, and disciplined inventory management, with gross profit growing from $208,000 in Year 1 to $1,081,600 in Year 5.

Operating Expenses: Total operating expenses are projected to increase from $198,000 in Year 1 to $802,760 in Year 5, primarily driven by the planned expansion of salaried personnel and marketing investment. Salaried payroll represents the largest component of operating expenses, increasing in alignment with the growth of the team from four employees in Year 1 to ten by Year 5. Non-payroll expenses, including marketing, fulfillment, platform and marketplace fees, software, and administrative costs, grow gradually and remain proportionate to the scale of operations. The projections assume no interest expense, consistent with the company's all-equity capitalization.

Profitability and Financial Sustainability: Based on the projected revenue growth and controlled cost structure, the company is expected to remain profitable throughout the projection period,

beginning in Year 1. 7.3 Cash Flow Assumptions

Prime Angling Tackle House, LLC's cash flow projections are prepared using conservative assumptions to ensure operational liquidity, financial stability, and sustainable internal growth over the five-year projection period. Cash inflows are generated from sales across the company's channels, while outflows fund inventory purchases, operating expenses, and modest equipment investment.

Cash Inflows: Cash inflows are derived from sales across the company's direct-to-consumer, marketplace, and wholesale channels, and increase from $520,000 in Year 1 to $2,720,000 in Year 5, in direct alignment with the company's sales forecast. The projections do not rely on external financing or non-operating income.

Cash Outflows: Cash outflows consist of inventory purchases and operating expenditures necessary to source, market, and distribute the company's products. Inventory purchases are supported by supplier credit of net 30 to 60 days, which reduces the cash required to build inventory. Outflows increase in line with sales growth and the expansion of the company's salaried team.

Capital Structure: The company is capitalized with $50,000 of paid-in equity and carries no debt. No cash outflows are allocated to debt repayment or interest, reinforcing the company's conservative, all-equity financial structure and supporting predictable cash management.

Net Cash Flow and Liquidity: Supported by its initial working capital, supplier credit, and consistent profitability, the company is expected to maintain a positive cash balance throughout the projection period, with a minimum cash position preserved in every year. The projected cash balance strengthens progressively as the company retains operating profits, reflecting a self-sustaining and financially resilient operating model funded by operating performance and the company's initial equity, without dependence on external debt.

7.4 Balance Sheet Assumptions

Prime Angling Tackle House, LLC's Pro Forma Balance Sheet reflects a conservative, transparent, and debt-free financial structure designed to support liquidity, operational stability, and long-term sustainability. The company operates without long-term debt and maintains a progressively strengthening financial position funded by its initial equity contribution, supplier credit, and accumulated operating performance.

Assets: The company's assets consist of cash, accounts receivable, inventory, and modest equipment. Cash and accounts receivable build steadily with sales, while inventory supports the company's omnichannel distribution across its three channels.

Liabilities: The company's principal liability is accounts payable to suppliers, reflecting the net 30 to 60 day supplier credit that funds inventory. The balance sheet assumes no long-term debt in any year, eliminating interest obligations and leverage-related financial pressure while preserving operational flexibility and financial resilience.

Capital Structure and Net Worth: The company's paid-in capital is projected at $50,000, representing the initial equity investment. Retained earnings evolve from an initial position toward an accumulated balance by Year 5 as the company retains profits. Net worth increases consistently from approximately $57,900 in Year 1 to approximately $497,330 by Year 5.

Overall, the balance sheet demonstrates a financially sustainable and low-risk structure characterized by strong liquidity, no long-term leverage, and equity growth supported by operating profitability and the company's initial capital.

Operating Agreement

This document is a key internal document for your company and defines how your LLC is structured, managed, and operates.

We are providing you with a **pre-filled, editable Word template**, which you may use as provided or edit if necessary to reflect your business. The most important point is that the final document accurately represents how your LLC operates.

The Operating Agreement is not filed with the state, but it is an essential internal record and may be requested by banks, accountants, or business partners.

Once finalized, the Operating Agreement **must be reviewed and signed by all members of the company**.

If any changes are made in the future, such as members or internal rules, they must be documented in writing through an Amendment to the Operating Agreement.

If you have any questions, please contact us at app.globalfy.com.

Important Notice: This is a general formation template provided by Globalfy. It is designed to support the creation of a Limited Liability Company (LLC), but it may not address all situations that can arise as the business grows, such as disputes among members, changes in ownership or the admission of new members.

Each company operates differently, and this internal document may need to be updated or adjusted over time to reflect its specific needs. Globalfy does not provide legal advice or customize legal documents. Any changes or additions should be made by the company based on its own circumstances.

XII - The partners declare, under penalty of law, that they are not subject to any crimes provided for by law or legal restrictions that may prevent them from engaging in business activities.

XIII - Any matters not provided for herein shall be resolved through the application of the provisions of the Civil Code, without prejudice to subsequent provisions.

XIV - The Court of Guarulhos - SP is hereby elected as the jurisdiction for judicial proceedings relating to these Articles of Association, with express waiver of any other jurisdiction, however special or privileged it may be or may become.

Re: Support for the L-1A Petition of Mr. Carlos Augusto Nogueira Filho

To Whom It May Concern,

My name is Buddy Hughes, and I serve as the Chief Executive Officer and owner of Bates Fishing Company, LLC, a manufacturer of CNC-machined fishing reels based in Sherman, Texas. I am pleased to submit this letter in support of Mr. Carlos Augusto Nogueira Filho, with whom I have maintained a direct and strategic international business relationship for over a year, both in his capacity as the head of Sea Fishing Brasil and through his U.S. venture, Prime Angling LLC.

In my experience as an international supplier, it is evident that Mr. Carlos is the definitive leader and principal executive of his organizations. Since our partnership began in April 2025, Mr. Carlos has consistently positioned himself as the sole decision-maker and the top representative of his companies. Whether negotiating complex commercial terms or defining the strategic direction of our partnership, he acts with full autonomy and without the need for third-party approval. Throughout our dealings, Mr. Carlos is the one who leads every high-level discussion and negotiation, setting the vision for inventory replenishment planning and purchase volume targets that have resulted in consistent growth. In all operations, he's the one with the authority to approve or deny commercial conditions. Sea Fishing Brasil is currently projected to exceed $100,000 USD in purchases before the end of 2026, a concrete result of his executive oversight.

Mr. Carlos's role is one of strategic leadership. He does not merely process orders; he determines the commercial strategy, makes the decisions and has the final word that makes those orders possible. This was clearly demonstrated when he personally made the executive decision to expand his operations into the United States by establishing Prime Angling LLC. Since June 2026, he has overseen the direct purchasing relationship between his U.S. entity and Bates Fishing Company, with projected purchases reaching approximately $70,000 USD by year-end. His visit to our headquarters in Texas, following his attendance at the ICAST trade show, further underscored his senior profile. During this visit, we did not discuss clerical details, but rather the long-term expansion of our partnership and the high-level positioning of our products in the global market.

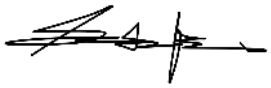

As the majority owner and senior executive of both Sea Fishing Brasil and Prime Angling LLC, Mr. Carlos is the central figure responsible for the growth of our brand in the Brazilian market and the successful launch of his new U.S. operation. He demonstrates a sophisticated executive profile characterized by his ability to navigate international trade, manage senior-level relationships, and execute large-scale business expansions. His direct involvement in founding and running these operations across two countries proves his capacity for high-level management and strategic vision.

Based on my direct professional experience with Mr. Carlos, I can affirm that he effectively performs an executive function, exercising the authority to define business strategies, make final decisions, negotiate on behalf of the company, and lead its international expansion. He has a proven track record of managing business operations with substantial independence and autonomy, while demonstrating the vision, judgment, and leadership qualities required to direct and expand complex international enterprises. I recommend him without reservation for a senior managerial or executive role in the United States, as he has already demonstrated the ability to lead his companies with the highest level of competence, authority, and accountability.

Please feel free to contact me should you require any further information regarding the strategic nature of Mr. Carlos's role or our ongoing business relationship.

Sincerely,

Buddy Hughes
Chief Executive Officer and Owner

To the United States Citizenship and Immigration Services (USCIS)

My name is Felipe Luiz Piovezan, I am entrepreneur and owner of Piovezan Sport Fishing, established in Sorocaba, São Paulo, Brazil. The company operates in the retail trade of hunting, fishing, and camping goods

I am writing this letter based on my direct professional experience with Mr. Carlos Augusto Nogueira Filho and the company SEA FISHING BRASIL. I have been a client of SEA FISHING BRASIL for approximately four years, and currently, Piovezan Sport Fishing represents the company's main client in terms of sales volume. Throughout this commercial relationship, I maintain daily contact with Mr. Carlos to discuss matters relevant to the partnership between our companies.

Through SEA FISHING BRASIL, Piovezan resells products from the brands DUO, TAILWALK, BATES FISHING CO. and, recently, the VARIVAS brand. Our commercial relationship is continuous and involves, among other matters, purchasing planning, inventory replenishment, definition of commercial conditions, monitoring of product launches, and the structuring of commercial partnership models.

In all relevant commercial negotiations between our companies, Mr. Carlos has always acted as the primary interlocutor, final decision-maker, and ultimate authority of SEA FISHING BRASIL. Based on my direct experience, I have observed that he personally manages the company's most important matters, including the definition of commercial conditions, deadlines, partnership models, strategic negotiations, and guidelines applicable to our business relationship. In all of these situations, Mr. Carlos demonstrated full executive autonomy and decision-making authority, with no need for third-party validation.

A concrete example of his strategic leadership and decision-making authority occurred in 2025, when Mr. Carlos, in collaboration with me, defined the implementation of the partnership model called 'DUO House'. Through this model, SEA FISHING BRASIL began to maintain a complete inventory of DUO brand products directly in my store under a consignment arrangement, with continuous stock replenishment and biweekly financial closing of the sales made.

This decision was led directly by Mr. Carlos and significantly reorganized the way our companies work together. The implementation of the 'DUO House' model demonstrated, in practice, Mr. Carlos's capability to make strategic decisions, structure efficient commercial models, and generate concrete results for SEA FISHING BRASIL and its business partners. To me, Mr. Carlos has always presented himself as the leader and top representative of SEA FISHING BRASIL, with full autonomy to conduct negotiations, define commercial conditions, approve partnership models, and represent the company's interests.

His posture is clearly executive and strategic, as he is the one who personally manages the most relevant matters in the relationship between our companies.

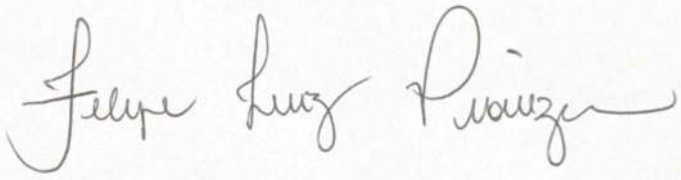

Furthermore, throughout our partnership, I have observed that Mr. Carlos directly manages SEA FISHING BRASIL's commercial relationships with prominent foreign manufacturers, such as BATES FISHING CO. from the United States and VARIVAS from Japan. The addition of the VARIVAS brand to SEA FISHING BRASIL's portfolio, which is now resold by Piovezan Sport Fishing, is a concrete example of his ability to identify opportunities, establish relationships with international suppliers, and expand the company's commercial reach within an international business environment.

Based on my direct professional experience, I highly recommend Mr. Carlos Augusto Nogueira Filho for high-level executive and managerial roles, including business operations in the United States. His decision-making autonomy, ability to structure strategic partnerships, commercial leadership, and business vision are evident throughout our professional relationship.

I declare that the information in this letter is true and reflects my personal and professional experience with Mr. Carlos Augusto Nogueira Filho and SEA FISHING BRASIL.

I remain at your disposal to provide any additional clarifications, if necessary.

Sincerely,

Felipe Luiz Piovezan
Entrepreneur

Meu nome é Felipe Luiz Piovezan, sou empresário e proprietário da Piovezan Sport Fishing, estabelecida em Sorocaba, São Paulo, Brasil. A empresa atua no comércio varejista de artigos de caça, pesca e camping.

Escrevo esta carta com base na minha experiência profissional direta com o Sr. Carlos Augusto Nogueira Filho e com a empresa SEA FISHING BRASIL. Sou cliente da SEA FISHING BRASIL há aproximadamente quatro anos e, atualmente, a Piovezan Sport Fishing representa o principal cliente da empresa em volume de vendas. Ao longo dessa relação comercial, mantenho contato diário com o Sr. Carlos para tratar de assuntos relevantes à parceria entre as empresas.

Por intermédio da SEA FISHING BRASIL, a Piovezan revende produtos das marcas DUO, TAILWALK, BATES FISHING CO. e, recentemente, a marca VARIVAS. Nossa relação comercial é contínua e envolve, entre outros assuntos, o planejamento de compras, reposição de estoque, definição de condições comerciais, acompanhamento de lançamentos de produtos e a estruturação de modelos de parceria comercial.

Em todas as tratativas comerciais relevantes entre as nossas empresas, o Sr. Carlos sempre atuou como principal interlocutor, responsável final e autoridade máxima da SEA FISHING BRASIL. Com base na minha experiência direta, pude observar que ele conduz pessoalmente os assuntos de maior importância da empresa, incluindo a definição de condições comerciais, prazos, modelos de parceria, negociações estratégicas e diretrizes aplicáveis à nossa relação comercial. Em todas essas situações, o Sr. Carlos demonstrou plena autonomia executiva e autoridade decisória, sem necessidade de validação de terceiros.

Um exemplo concreto de sua atuação estratégica e de sua autoridade decisória ocorreu em 2025, quando o Sr. Carlos definiu, em conjunto comigo, a implementação do modelo de parceria denominado "DUO House". Por meio desse modelo, a SEA FISHING BRASIL passou a manter um inventário completo de produtos da marca DUO diretamente em minha loja, sob regime de consignação, com reposição contínua de estoque e fechamento financeiro quinzenal das vendas realizadas.

Essa decisão foi conduzida diretamente pelo Sr. Carlos e reorganizou de forma relevante a maneira como as nossas empresas trabalham em conjunto. A implementação do modelo "DUO House" demonstrou, na prática, a capacidade do Sr. Carlos de tomar decisões estratégicas, estruturar modelos comerciais eficientes e gerar resultados concretos para a SEA FISHING BRASIL e seus parceiros comerciais. Perante mim, o Sr. Carlos sempre se apresentou como líder e representante máximo da SEA FISHING BRASIL, com total autonomia para conduzir negociações, definir condições comerciais, aprovar modelos de parceria e representar os interesses da empresa. Sua

postura é claramente executiva e estratégica, sendo ele quem conduz pessoalmente os assuntos de maior relevância na relação entre nossas empresas.

Além disso, ao longo da nossa parceria, pude observar que o Sr. Carlos conduz diretamente relações comerciais da SEA FISHING BRASIL com fabricantes estrangeiros de destaque, tais como a BATES FISHING CO., dos Estados Unidos, e a VARIVAS, do Japão. A incorporação da marca VARIVAS ao portfólio da SEA FISHING BRASIL, que passou a ser revendida pela Piovezan Sport Fishing, é um exemplo concreto de sua capacidade de identificar oportunidades, estabelecer relações com fornecedores internacionais e ampliar o alcance comercial da empresa em um ambiente empresarial internacional.

Diante da minha experiência profissional direta, recomendo ao Sr. Carlos Augusto Nogueira Filho para o exercício de funções executivas e gerenciais de alto nível, inclusive em operações empresariais nos Estados Unidos. Sua autonomia decisória, capacidade de estruturar parcerias estratégicas, liderança comercial e visão de negócios são evidentes em nossa relação profissional.

Declaro que as informações desta carta são verdadeiras e refletem minha experiência pessoal e profissional com o Sr. Carlos Augusto Nogueira Filho e a SEA FISHING BRASIL.

Permaneço à disposição para prestar esclarecimentos adicionais, se necessário.

Atenciosamente,

Felipe Luiz Piovezan

To the United States Citizenship and Immigration Services (USCIS)

My name is Guilherme Motta and I am the CEO of Fish Tv (Tunna entretenimento e audiovisual Ltda), the largest television channel exclusively dedicated to sport fishing in Brazil, and the organizer of the country's most important sport fishing trade fair, with its registered office in Novo Hamburgo, Rio Grande do Sul. I am writing this letter to attest, based on professional relationship, the executive performance of Mr. Carlos Augusto Nogueira Filho at Sea Fishing Brasil.

Sea Fishing Brasil Comércio, Importação e Exportação Ltda attended our trade fair as an exhibitor with its own booth, and maintains regular advertising and participation on our television channel. Throughout this relationship, I have maintained personal, direct, and frequent contact with Mr. Filho, who personally handles the relationship between Sea Fishing Brasil and Fish TV. This contact included negotiations and decisions regarding the company's participation in our trade fair, the planning of advertising campaigns on our channel, and strategic discussions concerning its brand positioning within the national sport fishing market.

At our trade fair, Sea Fishing Brasil presented its portfolio of high-end international brands to the public, such as DUO International, Tailwalk, Bates Fishing Co., and Varivas. In addition to the recurring advertising and participation on our television channel, this presence in our group's two main media outlets consistently reinforces the brand's positioning before the largest sport fishing audience in Brazil, directly reflecting the growth and relevance that the company has achieved under the leadership of Mr. Filho.

In our interactions, it was always Mr. Carlos who personally conducted the commercial and strategic negotiations regarding Sea Fishing Brasil's presence on our channel and at our events. All decisions were made directly by him, who held final and deliberative authority over these matters, without any need to submit them for validation or approval to another executive or higher hierarchical authority. This full autonomy and decision-making power were concretely demonstrated in the approval of advertising investments on FishTV, the definition of the company's participation in the trade fair, the choice of the size and format of this institutional presence, the alignment of marketing strategies, and the closing of all commercial conditions. Before me and before FishTV, Mr. Carlos has always acted and positioned himself as the primary leader and representative of the company, with unrestricted autonomy to manage and decide upon the strategic matters of the partnership.

Given the position that FishTV occupies, I maintain direct and permanent contact with practically all players in the sport fishing sector in Brazil, which provides me with a comprehensive view of how each name is perceived in this market. In this context, I can state that there is widespread recognition in the sector regarding the role of Mr. Filho as the chief executive at Sea Fishing Brasil and as the

person directly responsible for the strategic decisions of the company and the international brands it represents in the country. When these brands are discussed in the Brazilian market, it is his name that is immediately associated with them.

Mr. Filho demonstrates the profile of a senior executive, directly managing Sea Fishing Brasil's relationship with renowned international brands. His performance evidences a solid ability to represent the company in high-level commercial and multicultural contexts, negotiating and articulating partnerships with foreign players in an autonomous and strategic manner.

Based on my personal and direct experience, I can state that Mr. Carlos Augusto Nogueira Filho acts as a high-level executive. Throughout our relationship, he has consistently demonstrated strategic decision-making capability, executive posture, and business vision, personally guiding the direction of Sea Fishing Brasil and consolidating its presence in the main media outlets of the sport fishing sector in Brazil.

Sincerely,

Guilherme Motta

Em nossas tratativas, foi sempre o Sr. Carlos quem conduziu pessoalmente as negociações comerciais e estratégicas relativas à presença da Sea Fishing Brasil em nosso canal e em nossos eventos. Todas as decisões eram tomadas diretamente por ele, que detinha autoridade final e deliberativa sobre essas questões, sem qualquer necessidade de submetê-las à validação ou aprovação de outro executivo ou superior hierárquico. Essa autonomia plena e poder decisório manifestaram-se concretamente na aprovação dos investimentos em publicidade na FishTV, na definição da participação da empresa na feira, na escolha da dimensão e formato dessa presença institucional, no alinhamento das estratégias de divulgação e no fechamento de todas as condições comerciais. Perante mim e perante a FishTV, o Sr. Carlos sempre atuou e se posicionou como o principal líder e representante da empresa, com irrestrita autonomia para conduzir e deliberar sobre os assuntos estratégicos da parceria.

Nesse contexto, posso afirmar que existe amplo reconhecimento no setor quanto ao papel do Sr. Filho como principal executivo à frente da Sea Fishing Brasil e como

responsável direto pelas decisões estratégicas da empresa e das marcas internacionais que ela representa no país.Ao se falar dessas marcas no mercado brasileiro, é o nome dele que aparece imediatamente associado a elas.

O Sr. Filho demonstra perfil de executivo sênior, conduzindo diretamente a relação da Sea Fishing Brasil com marcas internacionais de renome. Sua atuação evidencia sólida capacidade de representar a empresa em contextos comerciais e multiculturais de alto nível, negociando e articulando parcerias com players estrangeiros de forma autônoma e estratégica.

Com base em minha experiência pessoal e direta, posso afirmar que o Sr. Carlos Augusto Nogueira Filho atua como executivo de alto nível. Ao longo de nossa relação, demonstrou consistentemente capacidade de tomada de decisão estratégica, postura executiva e visão de negócios, conduzindo pessoalmente os rumos da Sea Fishing Brasil e consolidando sua presença nos principais veículos do setor de pesca esportiva no Brasil.

Japan, August 11, 2026

To Whom It May Concern,

My name is Yusuke Iwasaki, and I serve as General Manager of DUO International Co., Ltd., a Japanese manufacturer of artificial lures and sport fishing equipment, headquartered in Japan. DUO International is a globally recognized brand in the sport fishing industry, with an established distribution network across multiple international markets. I am pleased to submit this letter in support of Mr. Carlos Augusto Nogueira Filho, with whom I have maintained a direct and ongoing international business relationship since October 2020, in his capacity as the principal executive of Sea Fishing Brasil Comércio, Importação e Exportação Ltda, the official Dealer Distributor of the DUO brand in Brazil.

In my capacity as General Manager, I have observed that Mr. Carlos is the individual responsible for spearheading Sea Fishing Brasil's relationship with DUO International. Our professional engagement has involved high-level negotiations, import planning, and the articulation of strategic objectives regarding the expansion of our brand in the Brazilian market. In every instance, he has performed his duties with significant autonomy, exercising final decision-making power over the company's direction.

Mr. Carlos's responsibilities transcend daily operational tasks and transactional execution, as he does not personally perform routine clerical duties. Instead, in his capacity as the majority shareholder and principal decision-maker of Sea Fishing Brasil, he operates at the executive level, directing the overarching strategy and supervising the organizational functions that drive the business. He determines resource allocation, establishes inventory planning targets, and sets the commercial parameters for product distribution across Brazil. Holding absolute decision-making power without the need for third-party validation, he exercises managerial oversight over these processes, ensuring that the company's various operational areas remain strictly aligned with its broader commercial objectives.

Throughout more than five years of uninterrupted partnership, Mr. Carlos has demonstrated a clear executive function within Sea Fishing Brasil. He acts as the executive leader who provides the definitive vision for the business, manages the implementation of commercial policies, and coordinates complex logistical and strategic processes. His involvement reflects a broad accountability for the organization's structural performance and market standing.

The tangible outcomes of his leadership underscore the effectiveness of his management style. Under his direction, Sea Fishing Brasil has maintained consistent monthly operations since 2020, achieving steady expansion in its trade volume. Total transactions reached approximately USD 145,750 in 2025, and results for 2026 are projected to exceed USD 190,100, culminating in a combined value of over USD 335,850 for this period. These milestones demonstrate his ability to establish rigorous goals, manage cross-border interests, and direct the growth of an international brand within a competitive environment.

Furthermore, Mr. Carlos has proven his capacity to command business operations within a multicultural corporate landscape. Concrete examples of his decision-making authority include his absolute prerogative to approve high-value import orders, establish commercial priorities, determine purchase volumes, select the specific product mix for importation, and approve strategies for new

product rollouts in Brazil. For over five years, he has personally governed the relationship between Sea Fishing Brasil and our headquarters in Japan, making these pivotal determinations without requiring external authorization. His leadership has ensured that the company maintains a stable presence, providing the organization with a coherent and unified strategic path.

He is the professional who evaluates business alternatives, sets the corporate course of action, and assumes full responsibility for the results. His executive authority is demonstrated by his responsibility for directing Sea Fishing Brasil's commercial strategy, determining purchase volumes and product mix, establishing distribution priorities, and making final decisions regarding the development of the DUO brand in Brazil. He exercises this authority independently, without requiring approval from third parties, and oversees the implementation of these decisions in accordance with the company's broader business objectives.

Based on our direct collaboration, I can affirm that Mr. Carlos effectively performs an executive function within Sea Fishing Brasil. His tenure has been characterized by directing business strategy, exercising high-level oversight over the company's international commercial and logistics functions, and establishing the policies required to maintain a major market presence. These accomplishments confirm his ability to direct a business enterprise with the ultimate authority, judgment, and executive leadership required for senior-level governance.

I am confident that the executive expertise Mr. Carlos has developed will be a significant asset to his ventures in the United States. His background in leading international operations and coordinating diverse business interests positions him to drive growth and foster strong commercial bridges between U.S. entities and global manufacturers.

Please feel free to contact me should you require any additional information.

Sincerely,

Yusuke Iwasaki
