I-129, Petition for a Nonimmigrant Worker

PREMIUM PROCESSING - REQUEST FOR EVIDENCE

IMPORTANT: THIS NOTICE CONTAINS YOUR UNIQUE RECEIPT NUMBER. THIS PAGE MUST BE SUBMITTED WITH THE REQUESTED EVIDENCE.

You are receiving this notice because U.S. Citizenship and Immigration Services (USCIS) requires additional evidence to process your form. Please provide the evidence requested on the attached page(s). Include duplicate copies if you are requesting consular notification.

Your response must be received by the address provided on the below coversheet by March 26, 2026.

Please note that you have been allotted the maximum period allowed for responding to a Request for Evidence (RFE). The time period for responding cannot be extended. See Title 8 Code of Federal Regulations (8 CFR), Section 103.2(b)(8)(iv). Because many immigration benefits are time sensitive, you are encouraged to respond to this request as early as possible, but no later than the deadline provided above. If you do not respond to this notice within the allotted time, your case may be denied. The regulations do not provide for an extension of time to submit the requested evidence.

You must submit all requested evidence at the same time. If you submit only some of the requested evidence, USCIS will consider your response a request for a decision on the record. See 8 CFR 103.2(b)(11).

If you submit a document in any language other than English, the document must be accompanied by a full and **complete** English translation. The translator must certify that the translation is accurate and he or she is competent to translate from that language to English. **If you submit a foreign language translation in response to this request for evidence, you must also include a copy of the foreign language document.**

Processing of your form or benefit request will resume upon receipt of your response. If you have not heard from USCIS within **60 days of responding**, you may contact the USCIS Contact Center (UCC)

at **1-800-375-5283**. If you are hearing impaired, please call the UCC TDD at **1-800-767-1833**.

S

I-129 O-1A Extraordinary Ability in Science, Education, Business, or Athletics

You, Nexustech Smart Solutions LLC, filed Form I-129, Petition for a Nonimmigrant Worker, seeking O-1A nonimmigrant classification for Aecio Flavio Bousfield Neto as a Managing Member.

The O-1A classification applies to individuals with extraordinary ability in the sciences, education, business, or athletics. The individual must have sustained national or international acclaim. The individual's achievements must be in the field of expertise and show that the individual is one of a small percentage who has risen to the very top of the field. The individual must be coming to the United States to continue work in the individual's area of extraordinary ability.

Pursuant to the preponderance of evidence standard, USCIS will examine each piece of evidence for relevance, probative value, and credibility, both individually and within the context of the totality of evidence, to determine whether the fact to be proven is probably true. USCIS comprehensively reviews the entire body of evidence before rendering a final determination of eligibility. Upon review of the evidence you submitted in the initial filing, the record contains insufficient documentation to establish the beneficiary meets the regulatory requirements for the O-1A classification.

To process your petition and determine if the beneficiary is eligible, additional information is required. This request provides suggested evidence that you may submit to satisfy each requested item. You may:

- Submit one, some, or all of these items;
- Submit none of the suggested items and instead submit other evidence to satisfy the request;
- Explain how the evidence in the record already establishes eligibility; and/or
- Request a decision based on the record.

Note, however, that you are responsible for providing evidence that best shows that you and the parties to this petition meet all requirements. Evidence must show that all parties were eligible for the requested benefit when you filed Form I-129.

Note: When submitting additional evidence, please indicate to which individual criterion it applies. If you choose to submit comparable evidence in lieu of one or more of the criteria below, please indicate why the criteria you wish to replace do not apply to the occupation.

Additionally, when submitting articles, internet abstracts, and other documentation (excluding testimonial letters) that includes the beneficiary's name, please highlight the beneficiary's name.

Please submit evidence that is the most current and is presented in an orderly fashion. Illegible photocopies will not be accepted as valid evidence.

Request for Translations

All foreign language documents must have a complete English translation to establish eligibility. This includes any documents you submit in response to this Request for Evidence. In order for USCIS to

consider this evidence, you must submit English language translations for each document. The translator must certify that:

- The translations are accurate and complete; and
- The translator is competent to translate from the foreign language into English.

General Requirements for All O-1A Nonimmigrant Petitions

In general, petitions seeking O nonimmigrant classification must include:

- Copies of contracts;
- A description of the competition(s), event(s), or performance(s); and
- At least one consultation.

To satisfy these requirements, you submitted:

- An Employment Agreement between the petitioner and beneficiary;
- An itinerary; and
- A peer letter.

Nature of the Event or Engagement

Petitions seeking O nonimmigrant classification must include an explanation of the competition, event, or performance in which the beneficiary will participate. An event means an activity such as a scientific project, conference, convention, lecture series, academic year, or engagement during the requested validity period. If you are filing for an O-1 athlete, a copy of the contract may satisfy this requirement.

The description you submitted is insufficient.

On the petition, you indicate your business is an IT consulting services and related technology solutions company established in 2025 with one employee. You identify the position proffered to the beneficiary as a Managing Member. The letter of support indicates the following:

> The position of Executive Director of Strategic Operations at NexusTech requires an individual with a robust and diverse background in large-scale cybersecurity management, technology operations, and strategic development of security and data solutions. The ideal candidate must demonstrate significant experience in leading IT and cybersecurity organizations, overseeing high-level operational teams, and driving innovation in areas such as critical-infrastructure protection, financial technology, and digital services.
>
> This executive-level role demands a professional who can oversee multi-layered responsibilities across cybersecurity architecture, IT infrastructure, AI-driven analytics, client integration, and organizational leadership. The Executive Director of Strategic Operations is expected to possess advanced knowledge of information security frameworks, cloud and network architecture, biometric authentication systems, and best practices for designing and scaling secure, reliable, and client-facing digital environments.
>
> ...
>
> The Executive Director of Strategic Operations will be responsible for:

- Leading NexusTech's cybersecurity and technology consulting operations, coordinating security, infrastructure, and data-analytics teams, as well as external technical partners and vendors;
- Developing and refining the company's cybersecurity, AI-analytics, and IT modernization strategies to support operational delivery and client expansion across the U.S., particularly for small and medium-sized businesses (SMBs), financial institutions, and industrial clients;
- Evaluating the performance, resilience, and scalability of client technology systems, including networks, cloud environments, and biometric authentication platforms;
- Advising clients on the adoption of AI-driven, data-centric practices to improve security posture, fraud detection, customer experience, and operational efficiency;
- Managing critical organizational tasks, including technology roadmaps, key performance indicators, risk-management policies, and cost optimization in security and infrastructure projects.

Based on the information provided, your business is customer driven and as you have just one employee at this time, it appears the beneficiary in addition to his Managing Member duties will be actively engaged in providing strategy, advisory and consulting services to clients. While you have contracted with the beneficiary, you have not identified any work your company has secured in the United States to demonstrate the beneficiary will be employed in the capacity indicated. Under the O-1A classification, the record must establish that the beneficiary will come to the United States to continue work in the area of extraordinary ability.

You may still submit evidence to satisfy this requirement.

The description must include:

- An explanation of the nature of the events or activities;
- Beginning and ending dates of the events or activities; and
- A copy of any itinerary that shows dates, name(s) of the employer(s), and location of the event(s).

Evidence of Sustained National or International Acclaim

You must show that the beneficiary has sustained national or international acclaim and recognition for achievements in the field of expertise. To demonstrate this, you may submit documentation to show the beneficiary received a major, internationally recognized award, such as the Nobel Prize. Alternatively, you may show that the beneficiary satisfies at least three of the eight criteria discussed below. Ultimately, the totality of the evidence must establish that the beneficiary has sustained national or international acclaim and that the beneficiary's level of expertise indicates that the beneficiary is one of that small percentage who has risen to the very top of the field.

Evidence of a Major, Internationally Recognized Award

You did not submit any evidence for this option. You may still submit evidence to satisfy it.

Evidence that can help USCIS determine that the award is major and internationally recognized may show:

- The award is internationally recognized as one of the top awards for the field;

- The criteria used to grant the award;
- The significance of the award in the field;
- The reputation of the organization or the panel granting the award;
- Previous winners of the award who held international acclaim at the time of receiving the award; or
- How the award attracts competition from internationally recognized individuals in the field.

Alternatively, you may attempt to qualify the beneficiary by providing evidence to satisfy at least three of the criteria below.

Qualifying Criteria
If you choose not to submit evidence of a one-time award, you may submit documentation of at least three of the criteria in this section.

The beneficiary does not appear to satisfy at least three of the eight criteria to show national or international acclaim and recognition. You may still submit evidence to satisfy criteria in this section.

The documentation you provide should show that the beneficiary has sustained national or international acclaim and is one of a small percentage of individuals who has risen to the very top of the field of endeavor.

To satisfy these requirements, you submitted:

- A letter of support;
- Documentation pertaining to the petitioner;
- Documentation pertaining to the beneficiary;
- Municipal Resolution No. 0725/2023;
- Medalha do Merito Empreededor "Adroaldo Pedro Cassol" - Official Certificate;
- Medalha do Merito Empreededor Adroaldo Pedro Cassol - Evidence of Ceremony and Official Listing of Honorees;
- Camara Municipal de Sao Jose - Press/Media Note About the Award and Honorees;
- Article from *Agora Floripa*;
- DNA Invest/WallStreetIA documentation - strategy decks, architecture diagrams, and internal technical descriptions;
- Backtesting reports and performance charts;
- Letters;
- Company records; and
- Income documentation for the beneficiary.

Awards
You may submit evidence showing the beneficiary received nationally or internationally recognized prizes or awards for excellence in the field. These are awards that do not meet the level of a major, internationally recognized award that would satisfy that alternate requirement.

The evidence you submitted is insufficient.

In your letter of support you indicate the beneficiary meets this criterion based on his receipt of the Medalha do Merito Empreededor Adroaldo Pedro Cassol award. However, the record contains insufficient evidence to meet this criterion because the evidence submitted does not establish that the

USCIS encourages you to sign up for a USCIS online account. To learn more about creating an account and the benefits, go to https://www.uscis.gov/file-online

prizes and/or awards the beneficiary received should be considered nationally or internationally recognized prizes or awards for excellence in the field.

In support you provided a document indicating that "The "Adroaldo Pedro Cassol Entrepreneurial Merit Medal" is hereby established within the scope of the Legislative Branch, to be award to all personalities who have excelled in entrepreneurship in Sao Jose, individuals and companies that have promoted through the exercise of their economic and/or social activity, contributing to the generation of employment and income and to the development of the city's economy." It appears that this award is a regional award specific to the city of Sao Jose. As such, the documentation provided does not establish that this would be considered a nationally or internationally recognized prize or award for excellence in the beneficiary's field of endeavor. Furthermore, it appears that the award is specifically for people working in Sao Jose for at least 5 (five) years. Since the award is specific to the city of Sao Jose it does not appears the beneficiary received this award compared to the field as a whole. As such, the evidence provided is insufficient to establish that the beneficiary meets this criterion.

You may still submit evidence to satisfy this criterion.

Evidence may include, but is not limited to:

- Criteria used to nominate and judge the participants and award winners;
- Evidence that the beneficiary was awarded a grant and, if available, the criteria used in electing grant recipients and the number of individuals who have received the grant;
- The origination, purpose, significance, and scope of each award. This includes:
    - The reputation of the organization or panel granting the prizes or awards;
    - How many prizes or awards are awarded each year; and
    - Previous winners of each award.

Memberships in Associations

You may submit evidence showing the beneficiary belongs to associations requiring outstanding achievements. The achievements must be judged by recognized national or international experts in identified disciplines or fields.

You did not submit any evidence for this option. You may still submit evidence to satisfy it.

Evidence may include, but is not limited to, documentation showing:

- The minimum requirements and criteria used to accept a person for membership;
- The number of members and beneficiary's ranking among the members, if any;
- The status of the association within the national or international community in the field of endeavor;
- Evidence of recognized national or international experts who make determinations about membership; and
- Other relevant requirements for membership.

Published Material

You may submit evidence of published material about the beneficiary's work in professional or major trade journals, or other forms of media (including electronic media). This must include the title, date, and author of the published material.

The evidence you submitted is insufficient.

In support of this criterion you provided an article from *Agora Floripa*. While the article discusses the beneficiary's work, no documentation was provided regarding this publication to establish that it is a professional or major trade journal or other form of major media. Instead it appears that this publication is a regional publication. As such, this evidence is insufficient to establish that the beneficiary meets this criterion.

You may still submit evidence to satisfy this criterion.

Evidence may include, but is not limited to, documentation that:

- Establishes the significance of the published material;
- Identifies the beneficiary as a person who has risen to the very top of the field of endeavor;
- Establishes the significance of the published material and identifies the name of the publication;
- Establishes that the published material has local, national, or international circulation;
- Establishes the frequency of publication, including the number of copies provided for circulation; and
- Establishes the source (web address) and date material was electronically published.

Judging the Work of Others
You may submit evidence showing the beneficiary has participated as a judge or on a panel that evaluated the work of others. The work must have been in the beneficiary's field of specialization or in an associated field.

You did not submit any evidence for this option. You may still submit evidence to satisfy it.

Evidence may include, but is not limited to:

- Evidence showing the significance of the work judged by the beneficiary;
- Information identifying the criteria used to select judges; and
- An explanation describing how and why the beneficiary received an invitation to be a judge.

Original Contributions
You may submit evidence showing the beneficiary made original contributions in the sciences, academia, or a business-related endeavor of major significance in the field.

The evidence you submitted is insufficient.

To satisfy this criterion, you submitted multiple testimonial letters from: Allan Andrade Pereira Macelai, CEO, Samaxi Group; Rodrigo de Andrade, City Councilman; Thiago da Maia Rocha, Officer, Batalhao de Operacoes Policiais Especiais (BOPE); and D'Angelo Machado, Chief Executive Officer, Zuvia.

You have provided documentary evidence indicating that people in the field of endeavor consider the beneficiary's work important.

While the testimonial letters attest the beneficiary is an extraordinary individual, who has made original, significant, or novel contributions to the field, the evidence in the record does not support

these claims. The letters lack specific details of how and why the beneficiary's work is an original contribution of major significance in the field of endeavor or how the beneficiary's work is being utilized or implemented by others in the field of endeavor.

Although the authors of the letters claim the beneficiary has made contributions in the field of endeavor, the letters do not sufficiently establish how the beneficiary's contributions are original. Furthermore, the documentation provided is insufficient to show that the beneficiary's work is being implemented by others in the field, does not demonstrate that the beneficiary's work has provoked widespread public commentary, and/or that the beneficiary has patents and/or licensed technology being used by others. Although you provided a trade history report and documentation regarding WallStreetIA, the evidence provided does not establish how this evidence shows the beneficiary's contributions have been implemented by others in the field at a level that is indicative of major significance.

Furthermore, you have not sufficiently established that the authors of the testimonial letters would be considered experts in the beneficiary's field of endeavor.

You may still submit evidence to satisfy this criterion.

Evidence may include, but is not limited to:

- Copies of patents (showing the beneficiary as author or coauthor);
- Objective documentary evidence of the significance of the beneficiary's contribution to the field;
- Documentary evidence indicating that people in the field of endeavor consider the beneficiary's work important;
- Testimony or support letters from experts that discuss the beneficiary's contributions of major significance, such as:
    - Letters of recommendation from venture capitalists that describe, in detail, the beneficiary's achievements and how they are of major significance in the field; or
    - Letters from CEOs/founders of distinguished organizations that describe, in detail, the beneficiary's achievements in the field and how such achievements are of major significance in the field.
- Evidence that the beneficiary's major, significant contributions provoked widespread public commentary in the field of endeavor and have been widely cited;
- Evidence of visitor traffic to the beneficiary's website, if the beneficiary's business is primarily based on-line. Evidence should include:
    - The number of individuals who purchased or downloaded the beneficiary's products or applications; and
    - Evidence showing that the product or application made original contributions of major significance to the beneficiary's field.
- Evidence of the beneficiary's work being implemented by others. This may include, but is not limited to:
    - Contracts with companies using the beneficiary's products;
    - The beneficiary's licensed technology being used by others; or
    - The beneficiary's patents being utilized and shown to be significant to the field.

Note: If you submit letters and testimonies, they should provide as much detail as possible about the beneficiary's contribution. They should explain, in detail, how the contribution was "original" (not merely replicating the work of others) and how they were of "major"

significance. General statements regarding the importance of the endeavors may be insufficient.

Scholarly Articles
You may submit evidence of the beneficiary's authorship of scholarly articles in the field, in professional journals or other major media (including electronic media).

You did not submit any evidence for this option. You may still submit evidence to satisfy it.

Evidence may include, but is not limited to, evidence showing:

- The significance and importance of the articles within the beneficiary's field of expertise;
- The significance and importance of the professional or major trade publications or other major media within the beneficiary's field of expertise that published the beneficiary's scholarly articles;
- The publication's circulation (local, national, or international);
- How often the publication is printed;
- The number of copies printed for circulation; and
- The number of citations to the beneficiary's written work.

Note: Circulation information should be specific to the media format in which it was published. For example, if the article was published online, the evidence must relate to the website. If it was published in print, the evidence must relate to the printed publication.

Employment in a Critical or Essential Capacity
You may submit evidence showing the beneficiary was employed in a critical or essential capacity for organizations and establishments that have distinguished reputations.

The evidence you submitted is insufficient.

In your letter of support you indicate that the beneficiary meets this criterion based on his employment for AMS Tecnologia da Informacao Ltda. While it appears that the beneficiary was employed in a critical or essential capacity, insufficient evidence was provided to establish how AMS Tecnologia da Informacao Ltda has a distinguished reputation.

You may still submit evidence to satisfy this criterion.

Evidence may include, but is not limited to, documentation that establishes the beneficiary's employment in a critical capacity with an organization or establishment that has a distinguished reputation.

Remuneration
You may submit evidence showing the beneficiary has commanded, now commands, or will command a high salary or other substantial compensation.

The evidence you submitted is insufficient.

In support of your petition you provided pay information for the beneficiary from several organizations; however, insufficient evidence was provided to establish that the beneficiary actually received the amounts indicated. Furthermore, no documentation was provided to establish how the

amounts the beneficiary received are indicative of him receiving a high salary in comparison to others performing the same services in the same field.

You may still submit evidence to satisfy this criterion.

The evidence to establish whether the beneficiary's compensation is high relative to others working in the field may take many forms. Examples may include but are not limited to:

- Copies of contracts or similar reliable evidence;
- Documents showing the beneficiary received a high salary, or other significant forms of compensation, for services in comparison to others in the field, which may include equity in lieu of cash;
- A statistical comparison of the salaries in the beneficiary's field from a government or private institution or a similar organization. This should show that the beneficiary commanded a high salary, or other significantly high remuneration, for services compared to others in the field;
- Geographical or position-appropriate compensation surveys and organizational justifications to pay above the compensation data;
- The Bureau of Labor Statistics (BLS): *http://www.bls.gov/bls/blswage.htm;*
- The Department of Labor's Career One Stop website: *http://www.careeronestop.org/SalariesBenefits/Sal_default.aspx;*
- The Department of Labor's Office of Foreign Labor Certification Online Wage Library: *http://www.flcdatacenter.com;*
- Testimony from industry experts; and
- Other corroborative evidence showing that the wage rate is high relative to others working in the field.

Note: U.S. Department of Labor (DOL) prevailing wage rate information alone does not generally establish a salary or other remuneration is "significantly" higher than others in the field. If you submit DOL prevailing wage rate information, you should submit additional evidence showing that the wage rate is high relative to others working in the field (such as the examples above).

Comparable Evidence

If the preceding achievement criteria did not readily apply to the beneficiary's occupation, you may submit comparable evidence to establish the beneficiary's eligibility. You should indicate why the criteria do not apply to the occupation.

You submitted comparable evidence and indicated that it is evidence of the beneficiary's commercial success. However, commercial success is not one of the criteria listed above which the beneficiary must meet to qualify him as an individual of extraordinary ability as an O-1A nonimmigrant. You did not indicate which of the above criteria do not readily apply to the beneficiary's occupation. You may still submit comparable evidence if you indicate which of the criteria do not readily apply to the beneficiary's occupation.

When submitting comparable evidence, you should:

- Explain how the regulatory criteria are not applicable to the beneficiary's occupation; and
- Explain why the evidence you submitted is "comparable" to the applicable regulatory requirement.

PLACE THE ATTACHED COVERSHEET AND THIS ENTIRE LETTER ON TOP OF YOUR RESPONSE. SUBMISSION OF EVIDENCE WITHOUT THE COVERSHEET AND THIS LETTER WILL DELAY PROCESSING OF YOUR CASE AND MAY RESULT IN A DENIAL.

RE: Response to Request for Evidence
Beneficiary: Aécio Flávio Bousfield Neto
Form I-129, O-1A Classification
Receipt Number: IOE8833529124

This letter is respectfully submitted in response to the Request for Evidence dated December 29, 2025, issued in connection with the above-referenced Form I-129 petition seeking **O-1A classification** for **Mr. Aécio Flávio Bousfield Neto** as an individual of extraordinary ability in business.

This response is submitted timely. It was dated **December 29, 2025,** with a response deadline of **March 26, 2026.**

The RFE requests additional clarification and supporting documentation concerning whether the Beneficiary satisfies the evidentiary criteria under section 101(a)(15)(O)(i) of the Immigration and Nationality Act and 8 C.F.R. § 214.2(o), specifically as it relates to:

- ***Whether the Beneficiary has received nationally or internationally recognized prizes or awards;***
- ***Whether the evidence establishes original contributions of major significance in the field;***
- ***Whether the Beneficiary has performed in a critical or leading role for distinguished organizations;***
- ***Whether the Beneficiary has received a high salary or other remuneration***
- ***Whether the totality of the evidence demonstrates sustained national or international acclaim.***

This response addresses each concern raised in the RFE in a structured and comprehensive manner. The Petitioner submits additional documentary evidence and clarifications demonstrating, by a

preponderance of the evidence, that **Mr. Bousfield satisfies multiple regulatory criteria** and meets the final merits standard applicable **to O-1A classification.**

The content of this response is organized into sections corresponding to the specific issues identified in the Request for Evidence to assist in the continued adjudication of this petition.

I. Nationally Recognized Prize or Award for Excellence

The RFE questions whether the *"Medalha do Mérito Empreendedor Adroaldo Pedro Cassol"* constitutes a **nationally or internationally recognized prize** or award under 8 C.F.R. § 214.2(o)(3)(iii)(B)(1).

Specifically, the RFE indicates that the record does not sufficiently demonstrate that the medal rises to the level of a nationally recognized award for excellence.

Respectfully, the additional documentation submitted in this response clarifies that the **award is a formal governmental distinction** created by legislative act and granted through an official public process.

As established in the original petition, the **"Medalha do Mérito Empreendedor Adroaldo Pedro Cassol"** was formally created by **Resolution No. 725/2023** of the **Câmara Municipal de São José, the legislative body** of the Municipality of São José in the State of Santa Catarina, Brazil. The Resolution establishes objective eligibility requirements, including a minimum **period of five years of entrepreneurial activity within the municipality and demonstrable contributions to economic development, job creation, and the transformation of the local economic environment.**

The Resolution explicitly states that the award is intended for individuals whose activities have contributed to **the creation of employment, the generation of income, and the development of the municipal economy.** The award is therefore not a private commercial recognition or promotional distinction. Rather, it is a governmental honor created by legislative act and conferred through an official public process administered by a municipal legislative authority.

Under the Resolution, the medal may only be granted once to each recipient and is awarded to a limited number of individuals annually. The selection process involves nomination by elected members of the municipal legislature and formal approval within the legislative body. The names of the recipients are publicly recorded and disseminated through official governmental channels.

The significance of this recognition must also be understood within the broader economic context of the State of Santa Catarina. **Santa Catarina is widely recognized as one of Brazil's leading innovation and technology regions.** The state hosts more than 29,000 technology companies and has experienced sustained growth in its digital economy, positioning it among the most dynamic technology ecosystems in the country[1].

[1] https://en.clickpetroleoegas.com.br/santa-catarina-no-setor-de-tecnologia-ocupa-5o-lugar-nacional-em-faturamento-com-r-425-bilhoes-podendo-gerar-mais-100-mil-vagas-ate-2027-sima00/

The metropolitan region of Florianópolis, which includes São José, has become a nationally recognized technology and startup hub and is frequently referred to as the "Brazilian Silicon Valley" due to its high concentration of innovative companies, technology startups, and research institutions. The region contains thousands of technology companies and generates tens of thousands of jobs in the digital economy, with the technology sector representing a substantial share of the local economy.[2]

Within this highly competitive entrepreneurial environment, recognition by the legislative authority of one of the region's principal municipalities reflects official governmental acknowledgment of measurable entrepreneurial impact.

Mr. Bousfield received the Medalha do Mérito Empreendedor Adroaldo Pedro Cassol in recognition of his **sustained entrepreneurial leadership across multiple enterprises operating in technology, financial technology, hospitality, and digital infrastructure development.** His ventures have contributed to local employment, economic activity, and the technological modernization of business operations.

The importance of Mr. Bousfield's entrepreneurial impact is further confirmed by the institutional support letter issued by Michel da Silva Schlemper, Vice Mayor of the Municipality of São José. In his official statement, the Vice Mayor describes the beneficiary as an entrepreneur who has distinguished himself within a highly competitive business environment and whose initiatives have contributed to the economic development of the municipality.

As Vice Mayor Schlemper explains in his letter:

> *"This is a highly competitive environment in which only entrepreneurs with differentiated vision, strong management capacity, and proven impact are able to establish a prominent position."*

He further notes that Mr. Bousfield has distinguished himself through the creation of business ventures that have contributed to the economic development of the municipality and strengthened the regional business environment.

This governmental recognition of the beneficiary's entrepreneurial leadership and economic contributions provides additional confirmation that the Medalha do Mérito Empreendedor was awarded in acknowledgment of measurable entrepreneurial impact and sustained business achievement.

Additional institutional confirmation of the significance of this recognition is provided by **Matson Luis Cé, President of the Municipal Chamber of São José**. In his official declaration, he confirms that Mr. Bousfield's receipt of the Medalha do Mérito Empreendedor followed the formal legislative recognition process of the municipality and reflects the beneficiary's measurable contribution to local economic development.

As Mr. Cé explains in his statement:

> *"It is possible to affirm, based on the practical analysis of the municipal economic dynamics, that Mr. Aécio Flávio Bousfield Neto belongs to a restricted group of*

[2] https://www.riotimesonline.com/brazils-santa-catarinas-rise-in-tech-and-innovation/?utm

entrepreneurs whose performance stands above the ordinary standard observed in the regional business environment."

This additional institutional confirmation further demonstrates that the medal represents formal governmental recognition of the beneficiary's entrepreneurial impact.

Accordingly, when considered in light of its legislative origin, governmental conferral process, and the objective criteria established by Resolution No. 725/2023, the **Medalha do Mérito Empreendedor Adroaldo Pedro Cassol constitutes a governmental award recognizing entrepreneurial excellence and measurable economic impact**. The medal is granted through an official legislative process to individuals whose entrepreneurial activities have demonstrably contributed to economic development, job creation, and business innovation within one of Brazil's most dynamic economic regions. Recognition of this nature, conferred by a governmental authority and based on demonstrable economic impact, **constitutes a nationally recognized prize for excellence in entrepreneurship** within the meaning of 8 C.F.R. § 214.2(o)(3)(iii)(B)(1).

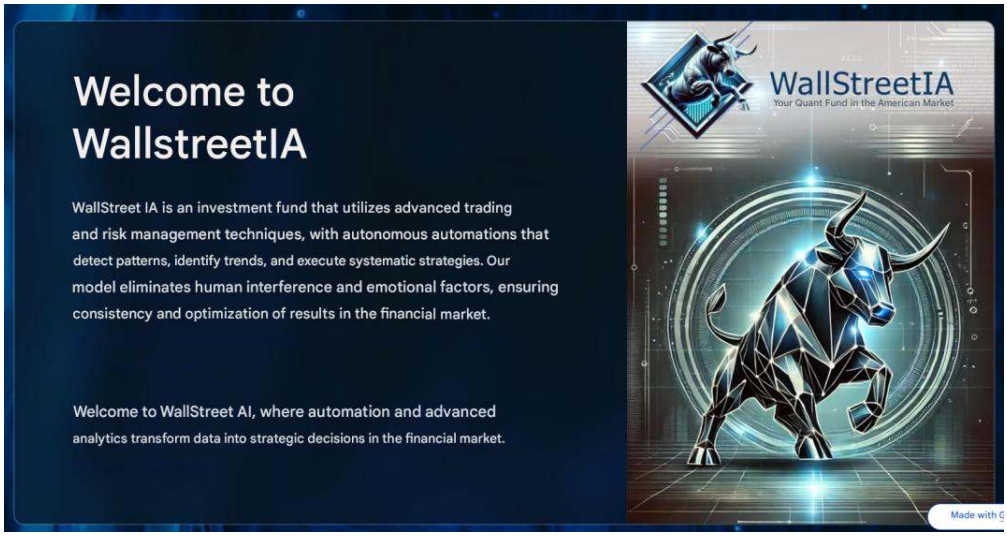

II. Original Contributions of Major Significance in the Field

The RFE questions whether the evidence submitted sufficiently demonstrates that Mr. Bousfield has made **original business-related contributions of major significance in the field,** as required under 8 C.F.R. § 214.2(o)(3)(iii)(B)(5). The RFE indicates that testimonial letters alone may not be sufficient to establish that the beneficiary's work has had a significant impact on the broader field.

Respectfully, the supplemented record provides objective documentation demonstrating that **Mr. Bousfield has conceived, structured, and implemented original technological and business innovations whose impact extends beyond routine commercial activity and has produced measurable economic and operational results.**

As detailed in the original petition, **Mr. Bousfield co-founded and architected the DNA Invest Nasdaq 1.0** automated trading system, **also referred to as WallStreet IA**[3]. This system represents the codification of a previously discretionary trading methodology into a structured, rules-based automated architecture operating on MetaTrader 5 and designed for execution in the U.S. Nasdaq market.

[3] https://gamma.app/docs/Bem-Vindo-a-WallstreetIA-i6c2rf0u5xsv8e2?mode=doc

The system integrates dynamic exposure control, progressive hedging logic, volatility-based risk calibration, and capital-preservation safeguards designed to operate within highly volatile market environments. Independent expert letters confirm that Mr. Bousfield led the architectural design and technical structuring of the system, translating complex discretionary trading strategies into a scalable automated framework capable of operating across multiple investor accounts.

The significance of this contribution is demonstrated through both technological implementation and investor participation. Performance documentation confirms that the system has operated in live trading environments under defined risk parameters, while independent investors allocated substantial capital to the strategy following due diligence review. **Investor Yuri Wolter Silva,** who manages a large real estate investment portfolio in Southern Brazil, confirms in his support letter that he personally invested approximately **USD 220,000 into the DNA Invest** platform after evaluating its technological architecture and operational model.

As Mr. Wolter explains in his letter:

> *"DNA Invest is not a conventional brokerage or investment advisory service. Aécio developed and implemented a proprietary automated trading system, the DNA Invest Nasdaq 1.0, designed to operate in the U.S. financial markets with a rules-based, algorithmic methodology. This system represents an original technical contribution: it was conceived, structured, and deployed by Aécio himself, combining his understanding of financial market dynamics with his expertise in technology and automation. The result is a platform that operates with a level of precision and risk discipline that is uncommon in the investment market."*

This independent capital investment provides objective confirmation that the beneficiary's work represents **a commercially viable and technologically original system within the fintech sector.**

The record further includes performance reports, investor presentations, and platform documentation demonstrating the operational results of the **WallStreetIA / DNA Invest system** in real trading environments. These reports document sustained portfolio growth across multiple market cycles, including periods of heightened volatility in global financial markets during 2024.

The data shows that the system dynamically adjusts exposure levels and entry filters to maintain risk discipline and capital preservation during unstable market conditions. Rather than relying on aggressive leverage, the automated strategy prioritizes capital protection while maintaining consistent performance through algorithmic risk management. This approach allowed the system to maintain stable results even during months characterized by significant market volatility.

Supporting documentation also includes investor presentations, pitch materials, and technical demonstrations that were provided to potential investors and market participants. These materials confirm that the platform has been actively evaluated as a viable automated trading architecture operating in the U.S. financial markets and has attracted interest from investors and potential users of the system.

Beyond financial technology, Mr. Bousfield has also implemented **original technological infrastructure across multiple large-scale business operations under his leadership.** In several hospitality and entertainment enterprises he founded and manages, he designed and deployed integrated biometric identification systems, facial recognition access control, and digital consumption tracking platforms that combine identity verification, fraud prevention, and operational analytics in a unified infrastructure.

These systems have been implemented in high-volume entertainment venues such **as Arena Ibiza and Angra Bar e Restaurante,** businesses that collectively serve tens of thousands of visitors annually and host large-scale public events. **Operational records confirm that Arena Ibiza alone generated approximately R$2.9 million in revenue during a twelve-month operational period**, demonstrating the commercial scale of the infrastructure implemented under the beneficiary's leadership.

Government authorities have also **formally recognized the economic impact of these ventures.** In his institutional support letter, the **Vice Mayor of São José** describes the beneficiary's role in the development of **major hospitality, sports, and entertainment infrastructure within the municipality, stating:**

> *"The creation of Restaurante Angra, an enterprise that has become a regional gastronomic reference, contributing to the appreciation of the food sector and to the strengthening of tourism and the creative economy. As a concrete example of its impact, this year the first large-scale New Year's Eve celebration was held in the city, expanding the official calendar of events and significantly stimulating the local economy.*

> *The conception and implementation of Arena Ibiza, a beach sports arena with more than 17 courts, a structure that has already hosted major circuits and tournaments, promoting sports, sports tourism, and social integration, in addition to generating direct and indirect economic impact in the region.*
>
> *More recently, the inauguration of another enterprise, which is undoubtedly another major addition to our city: Sky Park, an events center with capacity for approximately 7,000 people designed to host national concerts and corporate events."*

Similarly, independent business leaders confirm the technological and managerial originality of Mr. Bousfield's work. **Vilson Buss, President of Rôgga Empreendimentos,** a major real estate development company in Southern Brazil, explains in his support letter that the beneficiary's approach to technology and business operations goes beyond conventional IT consulting and reflects a broader capacity to integrate strategic management and technological infrastructure. As **Mr. Buss** explains in his letter:

> *"Aécio's profile is not comparable to that of a typical IT consultant. He combines an entrepreneurial mindset with strategic management discipline, and he approaches technology as a core driver of risk control, operational efficiency, and scalability."*

Mr. Buss further notes that professionals capable of translating complex technical requirements into structured business solutions are essential for organizations operating at scale:

> *"Aécio is the type of professional who can translate technical requirements into structured, reliable, and business-oriented implementation."*

Taken together, the evidence demonstrates that Mr. Bousfield's work involves far more than routine entrepreneurial activity. He has repeatedly conceived and implemented integrated technological systems and large-scale business infrastructures that combine cybersecurity architecture, financial automation, biometric identification systems, and operational analytics. These innovations have produced measurable commercial adoption, attracted external investment, generated substantial business revenues, and contributed to the development of multiple **sectors including financial technology, hospitality infrastructure, and large-scale event venues.**

Accordingly, when considered in light of the **technological originality of the systems implemented,** the independent investor participation, the commercial adoption of the infrastructure he designed, and the measurable economic impact of the businesses he developed, the record establishes that Mr. Bousfield has made original contributions of major significance in the field of technology-driven entrepreneurship and digital business infrastructure. The regulatory criterion under 8 C.F.R. § 214.2(o)(3)(iii)(B)(5) is therefore satisfied.

III. Leading or Critical Role for Organizations of Distinguished Reputation

The RFE questions whether the evidence sufficiently establishes that the beneficiary has performed in a leading or critical role for organizations with distinguished reputations, as required under 8 C.F.R. § 214.2(o)(3)(iii)(B)(7). The RFE indicates that the documentation may not

adequately demonstrate that the organizations referenced possess distinguished reputations or that the beneficiary's role within those entities was critical.

Respectfully, the additional documentation submitted with this response clarifies both the commercial scale of the organizations involved and the central role played by Mr. Bousfield in their strategic and operational leadership.

The record confirms that **Mr. Bousfield has served as founder, managing partner, or controlling executive in multiple enterprises generating substantial commercial activity across technology, hospitality, and entertainment sectors.** Financial documentation demonstrates that the portfolio of companies under his leadership generated approximately **R$ 23.1 million in gross revenue** within **a twelve-month period,** reflecting the significant operational scale of these ventures.

Among these organizations is **AMS Tecnologia da Informação Ltda.**, a technology and cybersecurity services company providing infrastructure modernization, network architecture, and information security solutions. In this organization, Mr. Bousfield serves as owner and managing partner and is responsible for strategic planning, cybersecurity architecture design, and the implementation of enterprise-level IT infrastructure solutions.

Mr. Bousfield also leads several large-scale hospitality and entertainment businesses that have achieved strong public recognition and significant customer engagement. These include **Arena Ibiza**, a large sports and recreation complex with more than 17 beach-sports courts, and **Angra Bar e Restaurante**, a hospitality venue that has become a well-known dining and social destination in the Greater Florianópolis region.

Operational and financial documentation confirms the commercial success and public visibility of these businesses. For example, Arena Ibiza alone generated approximately **R$2.9 million in revenue during a twelve-month operational period** and hosts sporting competitions, social gatherings, and large public events attended by thousands of visitors each year. Public review platforms and customer feedback further demonstrate sustained public engagement and strong market recognition for these venues.

The reputation and public recognition of these establishments is also reflected in **publicly available customer review platforms**. Independent consumer reviews show consistent high ratings and strong engagement from a large number of visitors. For example, publicly available Google review data shows:

- Arena Ibiza maintains an average rating of approximately 4.7 stars based on more than 400 verified customer reviews, reflecting sustained public approval and consistent visitor engagement.
- Angra Bar e Restaurante maintains an average rating of approximately 4.6 stars with more than 1,300 customer reviews, demonstrating strong reputation as a hospitality and dining venue.
- Terrazzo Onze and other venues operated under the beneficiary's business portfolio similarly maintain positive public ratings and customer engagement, further confirming their visibility and reputation within the local hospitality and entertainment market.

These independent customer reviews provide additional objective evidence that the organizations led by Mr. Bousfield possess recognized public reputation and sustained market engagement.

The reputation of these establishments within the regional business community is further confirmed by independent testimony. **Cristina de Matos,** an accounting professional with more than **two decades of experience** and owner of **CONTAC Contabilidade Ltda**., explains in her support letter that both **Arena Ibiza and Angra** have achieved strong market positioning and operational recognition.

As **Ms. de Matos** explains:

> *"Arena Ibiza is known for hosting large-scale events with excellent infrastructure and professional execution, while Angra has established itself as a premium dining and social venue with a loyal customer base and a reputation for quality and attention to detail."*

These organizations operate in highly competitive sectors in which sustained customer engagement, event attendance, and consistent operational performance are key indicators of commercial reputation and market recognition.

Within these organizations, Mr. Bousfield's role has been central to their strategic direction, technological infrastructure, and operational governance. As founder and managing partner, he has exercised executive authority over business planning, digital infrastructure development, cybersecurity implementation, and operational management.

Independent business leaders also confirm **that Mr. Bousfield's leadership involves the creation and structuring of complex business operations** rather than merely technical participation. **Cláudio Manoel da Cruz, founder and CEO of MEDhCIR,** a company recognized for supplying advanced medical technology throughout Brazil, explains that Mr. Bousfield demonstrates an uncommon ability to structure and scale business operations.

As **Mr. Cruz** explains in his letter:

> *"What sets Aécio apart is his ability to combine strategic vision with operational execution. He does not simply manage businesses; he builds them with structure, foresight, and a clear understanding of risk and scalability. As someone who has led a technology-driven company for over 20 years, I recognize the importance of having reliable partners who understand both the technical and business dimensions of complex operations. Aécio's background in technology, cybersecurity, and strategic management aligns with the type of leadership required in today's competitive and increasingly digital business environment."*

These venues attract both local and visiting audiences, hosting large public events, sporting competitions, and hospitality experiences that contribute to the regional tourism and entertainment economy.

Taken together, the **evidence demonstrates that Mr. Bousfield has consistently occupied leadership positions with executive authority within organizations that possess significant commercial activity, public visibility, and recognized presence in their respective markets**. His responsibilities have included strategic management, infrastructure development, technological implementation, and executive-level decision making that directly influences the operational success and growth of these enterprises.

Accordingly, the record establishes that **Mr. Bousfield has performed in leading and critical roles** for **organizations of distinguished reputation** within the meaning of **8 C.F.R. § 214.2(o)(3)(iii)(B)(7)**.

IV. High Salary or Other Remuneration for Services

The Request for Evidence also questions whether the evidence sufficiently demonstrates that the beneficiary has commanded a high salary or other substantial remuneration for services in comparison to others in the field, as contemplated under **8 C.F.R. § 214.2(o)(3)(iii)(B)(8)**. The RFE indicates that the documentation previously submitted did not sufficiently establish that the beneficiary actually received the compensation referenced or that such remuneration is high relative to comparable professionals.

Respectfully, the supplemental documentation submitted with this response clarifies both points.

The record includes accountant attestations, financial records, and corporate documentation confirming that the businesses under Mr. Bousfield's leadership generate substantial revenues and that he receives compensation and profit distributions as managing partner and owner of these enterprises. As an entrepreneur and controlling executive, Mr. Bousfield's remuneration derives primarily from ownership participation, profit distributions, and executive compensation tied to the performance of the companies he founded and manages.

Mr. Bousfield Neto's distinguished entrepreneurial trajectory is further evidenced by the financial success of his businesses. According to official financial records, **AMS Tecnologia da Informação Ltda. reported gross revenue of R$2,717,322.16 (approximately USD 497,331.92) in 2024**. These earnings reflect sustained demand for the company's cybersecurity and technology services and demonstrate the trust placed in Mr. Bousfield Neto's management and strategic leadership.

Additional financial documentation demonstrates the substantial revenue generated by other enterprises under the beneficiary's leadership. The portfolio of companies he founded and manages generated approximately **R$23.1 million (approximately USD 4,100,000)** in gross revenue within a twelve-month operational period, reflecting the significant commercial scale of these operations.

For example, operational records from **Arena Ibiza**, a large sports and entertainment complex with more than 17 beach-sports courts, confirm that the venue alone generated approximately

R$2.9 million (approximately USD 527,000) in revenue within a twelve-month operational period.

Financial records from **Angra Bar e Restaurante**, another enterprise founded and managed by Mr. Bousfield, further demonstrate substantial revenue generation through hospitality and large-scale event operations. Ticketing and event sales records confirm that the **Angra New Year's Eve 2026 event generated R$201,880 (approximately USD 36,700) in online ticket sales**, with an additional **R$13,050 (approximately USD 2,370) in point-of-sale ticket sales**, resulting in **R$214,930 (approximately USD 39,070)** in total ticket revenue for a single event. The event also included reserved lounge areas generating an additional **R$14,000 (approximately USD 2,540)** in reservations.

These financial records confirm that the businesses under Mr. Bousfield's leadership operate at substantial commercial scale and generate significant revenue streams from technology services, hospitality operations, and large-scale events.

Because Mr. Bousfield is the founder and managing partner of these companies, his remuneration derives directly from the financial performance of these enterprises and reflects a level of compensation associated with executive leadership and ownership participation in successful businesses.

In addition to demonstrating the beneficiary's actual earnings through business ownership and profit participation, the record also includes comparative salary data illustrating that the income generated through Mr. Bousfield's professional activities significantly exceeds the average compensation levels for comparable professionals in the technology sector.

For example, publicly available compensation data indicates that the **average annual salary for a Technology Manager in Brazil is approximately R$325,036 (approximately USD 59,000) per year**. Entrepreneurial compensation derived from equity ownership and profit participation in high-revenue businesses is widely recognized as a form of remuneration that significantly exceeds the salaries typically earned by employed professionals in comparable managerial roles.

When compared with the revenues generated by the enterprises under Mr. Bousfield's leadership and his executive ownership position within those businesses, the beneficiary's remuneration through profit distributions and business ownership substantially exceeds the compensation typically earned by professionals in comparable managerial or technology leadership positions.

Accordingly, the combined evidence of substantial business revenues, executive profit participation derived from business ownership, and comparative salary data demonstrating compensation levels above industry averages establishes that Mr. Bousfield has commanded **high remuneration for services relative to others in the field**, satisfying the regulatory criterion under **8 C.F.R. § 214.2(o)(3)(iii)(B)(8)**.

Totality of evidence - Final Merits Determination

The totality of the evidence submitted with the original petition, together with the supplemental documentation provided in response to the Request for Evidence, establishes that Mr. Aécio Flávio Bousfield Neto satisfies the statutory and regulatory requirements for classification as an individual of extraordinary ability in business pursuant to section 101(a)(15)(O)(i) of the Immigration and Nationality Act and 8 C.F.R. § 214.2(o).

The record demonstrates that Mr. Bousfield has achieved sustained recognition within the fields of technology-driven entrepreneurship, cybersecurity architecture, and financial technology innovation. Over more than two decades of professional activity, he has consistently occupied leadership positions in technology-intensive and revenue-generating enterprises, developing and implementing technological systems that integrate cybersecurity governance, biometric authentication infrastructure, and automated financial analytics. His professional trajectory reflects a sustained pattern of entrepreneurial innovation, operational leadership, and measurable economic impact across multiple sectors.

The evidentiary record further confirms that Mr. Bousfield has received formal governmental recognition for his entrepreneurial achievements through the Medalha do Mérito Empreendedor Adroaldo Pedro Cassol, a distinction created by legislative resolution and awarded by the Câmara Municipal de São José to individuals whose activities demonstrably contribute to economic development, innovation, and job creation. Such governmental recognition provides objective evidence that his work has been publicly acknowledged as having significant impact within the entrepreneurial and technology sectors.

In addition, the documentation submitted in the record establishes that Mr. Bousfield has made original business-related contributions of major significance in the intersection of financial technology, cybersecurity systems, and digital business infrastructure. His work includes the conception and architectural development of the DNA Invest Nasdaq 1.0 automated trading system, which translates complex discretionary trading methodologies into a structured algorithmic framework operating within the U.S. financial markets. The system incorporates automated risk management protocols, dynamic exposure control, and volatility-responsive strategy execution. Independent expert letters, performance documentation, and investor participation confirm that the platform has achieved measurable commercial implementation and has attracted significant capital allocation following technical evaluation.

Beyond the fintech domain, the record demonstrates that Mr. Bousfield has repeatedly implemented advanced digital governance and security systems within multiple high-revenue enterprises. These initiatives include the design and deployment of biometric identification systems, cybersecurity infrastructure frameworks, and integrated operational technologies that have improved fraud prevention, operational oversight, and digital risk management within hospitality and technology companies under his leadership. These implementations demonstrate the practical adoption of his technological solutions and confirm that his work has produced concrete commercial and operational impact.

The evidence also establishes that Mr. Bousfield has consistently served in leading and critical roles within organizations possessing substantial commercial activity and recognized presence in their respective markets. Corporate records, accountant attestations, and financial documentation confirm that the portfolio of enterprises under his executive leadership has generated multi-million-real annual revenues. In these organizations, Mr. Bousfield has exercised strategic

decision-making authority over cybersecurity architecture, technology deployment, operational governance, and digital infrastructure modernization, demonstrating that his role has been central to the growth and operational stability of these ventures.

The position offered in the United States further confirms that Mr. Bousfield will continue to work within the same area of extraordinary ability. As Managing Member of NexusTech Smart Solutions LLC, he will lead the company's cybersecurity strategy, technological architecture, and digital infrastructure development, applying the same expertise in cybersecurity governance, AI-driven analytics, and technology-enabled operational systems that has defined his professional career. The proposed employment therefore directly corresponds to the beneficiary's demonstrated field of expertise and provides a clear continuation of the work that has earned him recognition within the technology and business community.

When evaluated under the final merits framework required by 8 C.F.R. § 214.2(o)(3)(ii), the evidentiary record establishes that Mr. Bousfield's achievements reflect far more than ordinary professional success. The documentation demonstrates sustained recognition, technological innovation, executive leadership, and measurable commercial impact that together indicate a level of expertise placing him among the small percentage of professionals who have risen to the top of the field of technology-enabled business and cybersecurity innovation.

The totality of the evidence demonstrates that Mr. Bousfield's achievements are not limited to the successful management of individual businesses, but rather reflect a sustained pattern of innovation, technological implementation, and economic impact across multiple enterprises. His work integrating cybersecurity architecture, automated financial technologies, and advanced digital operational systems into revenue-generating organizations illustrates a level of professional distinction that is uncommon within the broader entrepreneurial community. The consistent recognition of his work by government authorities, independent experts, investors, and industry leaders further confirms that his expertise and accomplishments place him among the small percentage of professionals who have risen to the very top of the field.

Accordingly, when the evidence is considered in its entirety and under the applicable standard of proof, the record establishes by a preponderance of the evidence that Mr. Bousfield satisfies the requirements for classification as an individual of extraordinary ability under the O-1A nonimmigrant visa classification.

Your attention to this case will be deeply appreciated. Thank you for your time and consideration of the request on behalf of Mr. Bousfield Neto.

Sincerely,

Otavio Haverroth Silva
California Bar # 343486

ITINERARY

Aécio Flávio Bousfield Neto – Managing Member, NexusTech Smart Solutions LLC

Petitioner: NexusTech Smart Solutions LLC
Primary Location: Boca Raton, Florida (with client engagements in Florida and Texas)
Requested Period: March 2026 – February 2029 (36 months)
Position: Managing Member / Executive Director of Strategic Operations

INTRODUCTION AND PURPOSE OF THIS REVISED ITINERARY

This revised itinerary supplements and clarifies the original description previously submitted. It maintains the same overall business plan and executive role described in the petition, but provides additional detail regarding the nature of the events and activities, the types of clients to be served, the locations and timeframes of the engagements, and the concrete business relationships that support the viability of NexusTech Smart Solutions LLC's operations in the United States.

NexusTech Smart Solutions LLC is a customer-driven provider of cybersecurity, IT infrastructure, and AI-enabled analytics solutions for small and medium-sized businesses (SMBs), technology-sector companies, and enterprises operating in high-volume service environments. Mr. Bousfield will lead the design and implementation of these solutions in the United States as Managing Member and Executive Director of Strategic Operations, continuing the same line of work in technology-driven business, cybersecurity innovation, and automated analytics that has defined his prior career in Brazil.

The viability of this business plan is supported by formal letters of support and interest from U.S.-based and Brazilian professionals, including:

- Uli Dias, CEO of Tech Squad AV & Automation (Boca Raton, FL) – a U.S.-based company with a formal interest in engaging NexusTech as a service provider for information security structuring, advanced network monitoring, and strategic IT consulting;
- Guilherme Saleh, Commercial Developer at Pauta Distribuição – a Brazilian IT distribution company with an active commercial partnership with AMS Tecnologia (Aécio's Brazilian IT company), confirming his track record in the IT channel ecosystem;
- Alessandra Rocha, General Manager of Ilha Service Tecnologia e Serviços and member of the Deliberative Council of AEMFLO/CDL – an IT industry executive who reviewed NexusTech's business plan and confirmed its technical feasibility and market alignment;
- Vilson B., President of Rôgga Empreendimentos – a major Brazilian construction and development firm with international expansion plans, expressing interest in engaging NexusTech as a strategic IT and information security partner;
- Yuri Wolter Silva, investor in DNA Invest – who made a formal financial investment of approximately USD 220,000 in Aécio's proprietary automated trading platform (DNA Invest Nasdaq 1.0), confirming the originality and credibility of his technology-driven ventures;
- Cristina de Matos, Owner of CONTAC Contabilidade Ltda. – a long-standing client of Aécio's hospitality businesses (Arena Ibiza and Angra), confirming the operational consistency and market reputation of his ventures;

- Matson Luis Cé, President of the City Council of São José (SC) – who formally recognized Aécio with the Medalha do Mérito Empreendedor Adroaldo Pedro Cassol on March 11, 2025, for his concrete contribution to the local economy.

PHASE 1 – FOUNDATION, CLIENT ONBOARDING & INITIAL DEPLOYMENTS

Months 1–12 | March 2026 – February 2027

Primary locations: Boca Raton, FL (company headquarters); client sites in Florida and Texas; remote delivery as applicable.

Months 1–3 (March – May 2026): Operational Set-Up & Client Pipeline Finalization

Mr. Bousfield will complete the operational setup of NexusTech and finalize the initial client pipeline, including:

- Final legal, financial, and compliance setup of NexusTech Smart Solutions LLC in Boca Raton, FL.
- Definition and publication of core service packages, including:
  - Cybersecurity posture assessment and remediation plans for SMBs and service businesses;
  - Cloud and network architecture review and modernization;
  - Design of biometric/fraud-prevention frameworks for high-throughput venues;
  - AI-driven analytics and risk dashboards for clients with transactional or operational data at scale.
- Formalization of the partnership with Tech Squad AV & Automation (Boca Raton, FL), led by Uli Dias, for the provision of information security structuring, advanced network monitoring, and strategic IT consulting services. Tech Squad serves clients daily from Miami to West Palm Beach and works with industry-leading brands such as Lutron, Control4, Savant, and Crestron. This engagement represents NexusTech's first confirmed U.S. client relationship and will serve as a reference project for subsequent business development.
- Engagement with Rôgga Empreendimentos (Vilson B., President) regarding their international expansion plans, including the possibility of establishing a U.S. presence. NexusTech will provide strategic IT support, information security structuring, and operational risk guidance for this expansion scenario, representing a cross-border client relationship with a company that employs over 700 direct staff and has more than 3,900 units under construction.
- Consolidation of additional client pipeline in Florida and Texas, targeting SMBs in technology, logistics, hospitality, and service sectors, consistent with the service model reviewed and validated by Alessandra Rocha (General Manager, Ilha Service Tecnologia e Serviços), who confirmed the technical feasibility and market alignment of NexusTech's proposed services.

Months 4–6 (June – August 2026): First Wave of Client Projects

Under the initial service agreements and LOIs, Mr. Bousfield will:

- Lead the first cybersecurity and network security engagement for Tech Squad AV & Automation, including: mapping of existing network and client-facing system environments; identification of vulnerabilities and compliance gaps; delivery of written remediation plans and implementation

roadmaps; and implementation of hardened access controls and monitoring stacks for their residential automation systems serving clients from Miami to West Palm Beach.

- Adapt and implement proven architectures from his Brazilian operations – including risk-discipline logic from DNA Invest/WallStreetIA (as described by investor Yuri Wolter Silva, who invested USD 220,000 in the platform) and biometric/access control frameworks – to U.S. regulatory and market standards.
- Initiate preliminary IT security and infrastructure consulting for Rôgga Empreendimentos' international expansion planning, including data governance, secure communications, and cross-border operational risk frameworks.

Months 7–12 (September 2026 – February 2027): Expansion & Performance Tracking

- Expand from initial pilots to recurring managed service models (managed cybersecurity / managed infra) for first-wave clients.
- Onboard additional clients through referrals and business development, leveraging the commercial partnership model demonstrated by AMS Tecnologia's relationship with Pauta Distribuição (as described by Guilherme Saleh), which is built on reliability, transparency, and consistent execution.
- Implement advanced modules for selected clients, including AI-driven anomaly detection and operational/financial KPI dashboards, drawing on the automated analytics methodology developed for DNA Invest Nasdaq 1.0.
- Formalize performance metrics and reporting standards (reduction in security incidents, transaction volumes processed, efficiency gains).
- Begin drafting public-facing case studies and whitepapers based on anonymized results from U.S. client projects.

PHASE 2 – SCALING, INNOVATION & THOUGHT LEADERSHIP

Months 13–24 | March 2027 – February 2028

Primary locations: Boca Raton, FL; additional U.S. markets as client needs arise.

Months 13–18 (March – August 2027): Portfolio Diversification & Advanced Solutions

- Expand client base to new U.S. regions with strong demand for cybersecurity and digital modernization.
- Target sectors including: financial services/fintechs; hospitality and entertainment operators with high public flow (mirroring the operational model of Arena Ibiza and Angra, Aécio's Brazilian hospitality businesses recognized for large-scale event infrastructure and premium service delivery, as described by Cristina de Matos); and technology-sector companies requiring structured IT governance.
- Lead the design and rollout of AI-driven risk and performance analytics platforms, inspired by the proprietary automated trading system (DNA Invest Nasdaq 1.0) developed by Aécio – a rules-based, algorithmic methodology combining financial market dynamics with technology and automation, as described by investor Yuri Wolter Silva.

- Deploy biometric authentication and access control frameworks for high-throughput venues and service operations, aligned with applicable U.S. privacy and security standards.

Months 19–24 (September 2027 – February 2028): Consolidation & Applied Intellectual Production

- Produce whitepapers, case studies, and technical materials describing architectures adopted in client projects and results achieved.
- Participate, as opportunities are confirmed, in technology conferences, cybersecurity meetups, and industry events in the United States.
- Develop internal training programs and client-team capacity-building initiatives, replicating the governance and operational risk discipline approach used in his Brazilian ventures.
- Leverage the institutional recognition received in Brazil – including the Medalha do Mérito Empreendedor Adroaldo Pedro Cassol, formally awarded by the City Council of São José on March 11, 2025, as attested by Matson Luis Cé, President of the City Council – to establish credibility and thought leadership in the U.S. technology and business community.

PHASE 3 – MATURITY, NEW SERVICE LINES & LONG-TERM PLANNING

Months 25–36 | March 2028 – February 2029

Primary locations: Boca Raton, FL; client sites and events per active contracts.

Months 25–30 (March – August 2028): Portfolio Consolidation & Compliance Services

- Maintain and expand recurring contracts with existing clients (managed services).
- Introduce a line of information security policy and compliance consulting (e.g., alignment to NIST and applicable sector-specific standards).
- Deepen the strategic partnership with Tech Squad AV & Automation, potentially expanding the scope of services to include compliance advisory for their client base across South Florida.
- Continue supporting Rôgga Empreendimentos' international expansion planning, adapting IT governance and security frameworks to their evolving U.S. operational needs.

Months 31–36 (September 2028 – February 2029): Long-Term Planning & Continuous Innovation

- Lead the development of a 5-year strategic plan for NexusTech in the United States, including geographic expansion projections, evolution of AI security and analytics offerings, and potential collaborations with academic institutions or sector organizations.
- Continue supervising ongoing operations, ensuring service quality, technology updates, and regulatory compliance.
- Evaluate, based on organic growth, the hiring of additional technology and security professionals and partnerships with specialized local firms.

CONCLUSION

This revised itinerary maintains the same executive function and line of work initially described (cybersecurity, infrastructure, automation, analytics) while providing the additional specificity requested by the Officer regarding the nature of events and activities, timeframes, locations, and the connection between Mr. Bousfield's work and his area of extraordinary ability.

The specific projects, client engagements, and potential partnerships described in this itinerary are directly supported by the letters from U.S.-based and Brazilian professionals included in this response to the Request for Evidence. These letters confirm:

- Concrete interest from a U.S.-based technology company (Tech Squad AV & Automation, Boca Raton, FL) in engaging NexusTech as a service provider for cybersecurity and IT consulting;
- A formal financial investment of USD 220,000 in Aécio's proprietary automated trading platform (DNA Invest Nasdaq 1.0), confirming the originality and credibility of his technology-driven ventures;
- Active commercial partnerships between his Brazilian IT company (AMS Tecnologia) and established IT distributors (Pauta Distribuição), demonstrating a track record of reliable, professional business operations;
- Interest from a major Brazilian construction firm (Rôgga Empreendimentos) in engaging NexusTech for strategic IT support in the context of international expansion;
- Validation of NexusTech's business plan by an experienced IT industry executive (Alessandra Rocha, Ilha Service Tecnologia e Serviços);
- Formal institutional recognition by the City Council of São José, SC, confirming Aécio's standing as an entrepreneur of above-average impact in the regional economy.

Mr. Bousfield is coming to the United States to continue – and expand – the same line of work that has defined his career: building and leading technology-driven businesses that combine cybersecurity, infrastructure, automation, and analytics to deliver measurable operational and economic results. NexusTech Smart Solutions LLC is the vehicle through which this continuation will occur, with concrete client relationships, a validated business plan, and a track record of extraordinary professional achievement supporting its viability.

Brazil’s Santa Catarina’s Rise in Tech and Innovation

riotimesonline.com/brazils-santa-catarinas-rise-in-tech-and-innovation

Richard Mann November 11, 2023

Santa Catarina, known as a farming paradise, is emerging as a leader in technology and innovation, with a plethora of tech firms and startups in the region.

These startups focus on selling new and scalable products or services. As of 2021, the state has 22,125 tech companies, says Acate (Santa Catarina Association of Technology).

These companies are run by 19,900 entrepreneurs. They employ 76,700 people. The annual revenue of these firms is R$ 23.8 billion ($4.86 billion).

Most tech companies are in the Greater Florianópolis area. This area has 7,300 tech businesses.

It makes almost half of the state’s tech revenue. This amounts to R$ 10.2 billion ($2.08 billion) a year.

The number of startups is growing. According to a 2022 Sebrae report, there are 1,947 startups. This is a 49.5% increase from the previous year.

Santa Catarina’s startups are more advanced than others in Brazil. More of these startups are in the operation and traction stages. This is higher than the national average.

The annual revenue of these startups is also higher. They earn more than the average Brazilian startup.

Brazil’a Santa Catarina’s Rise in Tech and Innovation – Agora Tech Park. (Photo Internet reproduction)

Their earnings range from R$ 81,000 ($16,530) to R$ 3 million ($612,240). Tech companies are important for the local economy.

Sebrae-SC says they greatly help in collecting taxes. In Florianópolis, 30% of the city’s revenue comes from these companies. This revenue mainly comes from the ISS (Tax on Services).

Marcus Rocha, Sebrae-SC’s innovation and startups manager, talks about these companies. He says they support the economy, society, and environment.

The strongest tech areas in the state are information technology, health, indtechs (industry-focused startups), and agtechs (agribusiness-focused startups).

Many Startups

Startups create many jobs. They grow fast and have a big economic impact. Marcus says they bring in skilled, high-income people. This boosts the local economy.

Santa Catarina's high income level helps its tech businesses. Iomani Engelmann, president of Acate, explains this.

The state's Human Development Index (HDI) was 0.792 in 2021. This is higher than Brazil's average of 0.754.

The per capita income in Santa Catarina was R$ 2,018 ($412) in 2022. This is higher than the national average of R$ 1,625 ($331).

Iomani says the pandemic sped up tech development in the state. Many IT professionals worked remotely in Santa Catarina. They didn't even live in the state.

The tech ecosystem in Santa Catarina is strong because companies work together. Marcus says they share experiences and solve problems together.

This is known as "business association." Traditional companies are also joining this tech movement.

They partner with startups to modernize their operations. Marcus says this is essential because these companies face daily competition.

Changing Tax Situation

The tax situation is changing. Acate says the current tax rate for tech is about 10%. A proposed tax reform could raise this to 27.5%.

Iomani suggests that the software and tech sectors should have different tax rates. He worries that high taxes could make companies leave Santa Catarina.

They might move to countries with lower taxes, like Ireland.

Florianópolis, an island city, relies on tech as its main economic driver. Changes in taxes could affect the local economy.

Iomani gives advice to entrepreneurs interested in Santa Catarina's tech scene.

He suggests understanding the local tech environment and seeking support from organizations like Sebrae. They should then implement their ideas and seek growth opportunities.

In conclusion, a startup is a new company with a unique idea. They are risky but have high growth potential. Companies like Nubank, Rappi, and Quinto Andar started as startups.

Santa Catarina ranks 5th nationally in the technology sector in terms of revenue, with R$42,5 billion, potentially generating an additional 100 jobs by 2027.

Business

Santa Catarina's technology sector generated R$42,5 billion in revenue in 2024, ranking 5th nationally, and projecting the creation of 100 jobs by 2027. Image: Disclosure

Santa Catarina's technology sector generated R$42,5 billion in revenue in 2024, ranking 5th nationally, and projecting the creation of 100 jobs by 2027.

Santa Catarina consolidated its status as a leader in the technology sector by recording R$42,5 billion in revenue in 2024. Data from the Acate Technology Observatory — in partnership with Neoway — shows that the state rose to **5th**

place nationally in revenue, in addition to achieving impressive **100,4 thousand formal jobs** in the segment.

The growth, above the national average, reinforces the region's technological vocation, especially at a time of accelerated expansion and opportunities for talent development.

Record revenue and above-average growth

O **technology sector** em **Santa Catarina** grew 11% in 2024 compared to 2023, exceeding the national average of 7,7%.

See also other features

- Will the minimum wage of R$ 1.621 be enough to live on in 2026? Ideal income in some Brazilian cities can reach R$ 16.
- MorumBYD: The traditional Morumbi Stadium, home of São Paulo Futebol Clube, may get a new name after Chinese automaker BYD inquired about acquiring the naming rights to the arena.
- The world's largest fast-food chain announces its arrival in Brazil in April with a plan to create 25 jobs and invest billions of dollars to open stores and transform the country into a base for expansion in Latin America.
- R$10 per ride or delivery? Government pressures Congress to approve new app law and attempts to change rules that currently leave Uber drivers and delivery workers with the smallest share of the fare paid.

With R$42,5 billion in revenue, the state surpassed Rio Grande do Sul and reached 5th place in the national ranking, behind only São Paulo, Rio de Janeiro, Minas Gerais and Paraná.

Furthermore, the sector contributed 7,75% of the **GDP of Santa Catarina**, the third highest rate among Brazilian states.

Above-average jobs and pay

Santa Catarina ended 2024 with 100,4 thousand formal jobs in the sector, which gave it the **3rd national position in number of vacancies**, surpassing previous standards.

This contingent grew 7,2% in the period, compared to an average of 3,4% in the country.

Furthermore, the average salary in the segment reached R$5.768 — almost double what is earned in sectors such as commerce and construction.

Formal employability is 39,5 jobs per thousand workers: also the **3rd best national index**.

Expanding business ecosystem

Santa Catarina closed 2024 with **29,4 thousand technology companies**, with growth of 6,2% — the highest among the states analyzed.

The number positions the state among the largest IT hubs in the country.

Diego Ramos, president of the Acate Observatory, points out that the result is the result of **qualified talents**, from **local entrepreneurship** and the **synergy between university, industry and government**.

Future demand for talent: almost 100 vacancies by 2027

The forecast is that the **Santa Catarina's technology sector will create almost 100 new jobs between 2025 and 2027**, according to the 4th ACATE Demand Mapping in partnership with Sebrae Startups.

Of this total, 45% of opportunities must be allocated to **developers** (front-end, back-end and full stack).

Also noteworthy are the positions focused on **artificial intelligence, digital marketing, data analysis, mobile and product management**.

Work regimes and valued soft skills

Vacancies in the sector are converging towards more flexible regimes: 35,8% of positions will be **hybrid**, 21,7% fully remote and only 17,9% in-person.

In addition to technical skills, companies in Santa Catarina especially value **soft skills** , the *ability to solve problems*, *team work* e *proactivity*, according to Moacir Marafon, Vice President of Talent at ACATE.

Capitalization and innovation potential

The performance of **technology sector in Santa Catarina** reflects the strength of hubs such as Florianópolis and Vale do Itajaí.

The expectation is that, by 2030, the segment will represent **10% of state GDP**, driven by the expansion of startups and innovative companies.

Santa Catarina is making strong progress in the technology sector

With consistent growth in revenue, job creation and the opening of hundreds of thousands of vacancies, **Santa Catarina stands out as one of the main technological hubs in Brazil**.

The state gathers **innovation, talent and support policies**, putting itself in a privileged position to accelerate its digital transformation in the coming years.

RESOLUTION NO. 0725 OF OCTOBER 4, 2023

ESTABLISHES THE "ADROALDO PEDRO CASSOL ENTREPRENEURIAL MERIT MEDAL" WITHIN THE MUNICIPALITY OF SÃO JOSÉ AND MAKES OTHER PROVISIONS.

I HEREBY MAKE KNOWN THAT THE CITY COUNCIL OF SÃO JOSÉ HAS APPROVED AND I HEREBY ENACT THE FOLLOWING RESOLUTION:

Art. 1st The **"Adroaldo Pedro Cassol Entrepreneurial Merit Medal"** is hereby established within the scope of the Legislative Branch, to be awarded to all personalities who have excelled in entrepreneurship in São José, individuals and companies that have promoted through the exercise of their economic and/or social activity, contributing to the generation of employment and income and to the development of the city's economy.

Art. 2nd The Medal will be awarded according to the following criteria:

I - working in the city of São José for at least 5 (five) years;

II - contribution to the economic development of the city; and

III - demonstration of entrepreneurial character and transformation of social/economic reality.

Sole Paragraph. The awarding of the Medal will be preceded by a search of this Legislative Chamber's database to ensure that:

I - each recipient receives the medal only once; and

II - the recipient meets the requirements of this Resolution.

Art. 3rd The honor will be conferred by the City Council of São José through a nomination by a city councilor with a seat on the council.

Sole Paragraph. The nomination of the honorees must be accompanied by a brief history of the legal entity to be honored or a curriculum vitae in the case of an individual, as well as a justification in either case.

Art. 4th The Medal will preferably be awarded during Entrepreneurship and Innovation Week, which will take place in the second week of March each year, under the terms of Ordinary Law No. 5,863 of March 25, 2020.

Sole Paragraph. The date of the Medal's award may vary within the month of March at the discretion of the Board of Directors in terms of convenience and opportunity.

To verify its authenticity, go to: https://www.cmsj.sc.gov.br/cer and enter the code: 231004160733B5D9

Art. 5th The medal must be made of silver-colored metal, have a circumferential shape with a diameter of 6 (six) centimeters, containing the sphinx of Mr. Adroaldo Pedro Cassol in the center, with the inscription **"Adroaldo Pedro Cassol Entrepreneurial Merit Medal"** around its edge at the top and the coat of arms of the Municipality of São José on the reverse side.

Sole Paragraph. The medal will be supported by a silk gorgoron ribbon with three (03) wide stripes perpendicularly, one (01) in the center in red and two (02) in white.

Art. 6th The expenses arising from this proposal will be borne by the budget of the Legislative Branch.

Art. 7th This Resolution enters into force on the date of its publication.

San José City Council, October 4, 2023.

RESOLUÇÃO N° 0725 DE 04 DE OUTUBRO DE 2023

INSTITUI NO ÂMBITO DO MÚNICÍPIO DE SÃO JOSÉ A "MEDALHA MÉRITO EMPREENDEDOR ADROALDO PEDRO CASSOL" E DÁ OUTRAS PROVIDÊNCIAS.

FAÇO SABER QUE A CÂMARA MUNICIPAL DE SÃO JOSÉ APROVOU E EU PROMULGO A SEGUINTE RESOLUÇÃO:

Art. 1º Fica instituída no âmbito do Poder Legislativo a **"Medalha do Mérito Empreendedor Adroaldo Pedro Cassol"** a ser destinada a todas as personalidades que tem se destacado no empreendedorismo em São José, pessoas físicas e jurídicas que tenham promovido mediante exercício de sua atividade econômica e/ou social, contribuindo para a geração de emprego e renda e no desenvolvimento da economia do Município.

Art. 2º A concessão da Medalha observará os seguintes critérios:

I - atuação no Município de São José por pelo menos 5 (cinco) anos;

II - contribuição para o desenvolvimento econômico do Município; e

III - demonstração de caráter empreendedor e transformador da realidade social/econômica.

Parágrafo único. A concessão da Medalha será precedida de pesquisa no banco de dados desta Casa Legislativa a fim de assegurar que:

I - cada agraciado(a) receba a medalha apenas 1 (uma) vez; e

II - o(a) agraciado(a) atenda aos requisitos previstos nesta Resolução.

Art. 3º A homenagem será conferida pela Câmara Municipal de São José através de indicação por Vereador com assento na Câmara.

Parágrafo único. A indicação dos homenageados deverá ser acompanhada de histórico resumido da pessoa jurídica a ser homenageada ou de currículo, quando se tratar de pessoa física, bem como de justificativa em quaisquer dos casos.

Art. 4º A entrega da Medalha ocorrerá, preferencialmente, na Semana do Empreendedorismo e Inovação que acontecerá na segunda semana do mês de março de cada ano, nos termos da Lei Ordinária nº 5.863 de 25 de março de 2020.

Parágrafo único. A data da entrega da Medalha poderá variar dentro do mês de março a critério do juízo de conveniência e oportunidade da Mesa Diretora.

São José, Santa Catarina, February 16, 2026.

To
the U.S. Citizenship and Immigration Services (USCIS).

Subject: Institutional Statement in Support of Aécio Flávio Bousfield Neto's O-1 Visa Petition

I, Michel da Silva Schlemper, Vice Mayor of the Municipality of São José, State of Santa Catarina, holding a degree in Public Administration and with an established career in the Municipal Legislative and Executive Branches, hereby express my institutional and unequivocal support for the petition for the granting of an O-1 visa on behalf of Aécio Flávio Bousfield Neto.

São José holds a strategic position in the Greater Florianópolis region, forming part of the State's largest urban hub and concentrating intense economic, business, and technological activity. It is a highly competitive environment in which only entrepreneurs with a distinctive vision, strong management capacity, and proven impact are able to establish a position of regional prominence.

In this context, I have followed Aécio Flávio Bousfield Neto's career for many years, and he is a professional who has consistently distinguished himself in the local and regional entrepreneurial arena.

Among his most significant achievements, I highlight:

- The creation of Angra Restaurant, a business venture that has become a regional gastronomic benchmark, contributing to the advancement of the food service sector and to the strengthening of tourism and the creative economy. As a concrete example of its impact, this year the city hosted its first large-scale New Year's Eve celebration, expanding the official events calendar and significantly stimulating the local economy;

- The conception and establishment of Arena Ibiza, a beach sports complex with more than 17 courts, a facility that has already hosted major circuits and tournaments, promoting sports, sports tourism, and social integration, while also generating direct and indirect economic impact in the region.

- More recently, he inaugurated yet another business venture which is, without a doubt, another major asset to our city: Sky Park, an event center with capacity for 7,000 people for the hosting of nationally recognized concerts and corporate events.

It is important to emphasize that, in addition to these highly visible and impactful ventures, Aécio also leads other businesses and entrepreneurial initiatives that likewise stand out in the region, further demonstrating his ongoing ability to identify strategic opportunities, structure sustainable operations, and generate consistent economic development.

His work demonstrates a high standard of performance, established business leadership, strategic innovation, and a proven ability to generate regional impact—characteristics that go beyond the ordinary exercise of entrepreneurial activity.

I understand that the body of his achievements demonstrates a profile fully consistent with the extraordinary ability criteria established for the O-1 visa, especially with respect to prominence in his sector, regional recognition, leadership role, and substantial contribution to economic development.

I am convinced that his work in the United States will represent a meaningful contribution to the American business environment, promoting knowledge exchange, innovation, and the strengthening of international connections.

In light of the foregoing, I hereby express my full institutional support for the approval of Aécio Flávio Bousfield Neto's O-1 visa petition and place myself at your disposal for any additional clarification that may be required.

Sincerely,

----//signature//----
MICHEL DA SILVA SCHLEMPER
VICE MAYOR

Assunto: Manifestação Institucional de Apoio ao Pedido de Visto O-1 – Aécio Flávio Bousfield Neto

Eu, Michel da Silva Schlemper, Vice-Prefeito do Município de São José, Estado de Santa Catarina, graduado em Gestão Pública e com trajetória consolidada no Poder Legislativo e Executivo Municipal, venho, por meio desta, manifestar meu apoio institucional e inequívoco ao pedido de concessão do visto O-1 em favor de Aécio Flávio Bousfield Neto.

Ao longo de minha atuação pública — como Vereador por dois mandatos, Presidente da Câmara Municipal, Secretário em pastas estratégicas e, em diversas ocasiões, Chefe do Poder Executivo de forma interina — acompanhei de perto o desenvolvimento do ambiente empreendedor de nosso município, que hoje figura entre os mais dinâmicos de Santa Catarina.

São José ocupa posição estratégica na região da Grande Florianópolis, compondo o maior polo urbano do Estado e concentrando intensa atividade econômica, empresarial e tecnológica. Trata-se de um ambiente altamente competitivo, no qual apenas empreendedores com visão diferenciada, elevada capacidade de gestão e impacto comprovado conseguem consolidar protagonismo regional.

Nesse contexto, acompanho há muitos anos a trajetória de Aécio Flávio Bousfield Neto, profissional que se destaca de forma consistente no cenário empreendedor local e regional.

Entre suas realizações de maior relevância, destaco:

• A criação do Restaurante Angra, empreendimento que se consolidou como referência gastronômica regional, contribuindo para a valorização do setor de alimentação, para o fortalecimento do turismo e da economia criativa. Como exemplo concreto de seu impacto, neste ano foi realizada a primeira festa de Réveillon de grande porte na cidade, ampliando o calendário oficial de eventos e movimentando significativamente a economia local;

• A idealização e implantação da Arena Ibiza, arena de esportes de areia com mais de 17 quadras, estrutura que já sediou circuitos e torneios de grande porte, fomentando o esporte, o turismo esportivo e a integração social, além de gerar impacto econômico direto e indireto na região.

• Recentemente a inauguração de mais um empreendimento, que sem dúvida é mais uma grande aquisição para nossa cidade, a Sky Park um centro de eventos com capacidade para 7 mil pessoas para realização de shows nacionais e eventos corporativos.

Importante ressaltar que, além desses empreendimentos de grande visibilidade e impacto, Aécio também está à frente de outros negócios e iniciativas empresariais que igualmente se destacam na região, reforçando sua capacidade contínua de identificar oportunidades estratégicas, estruturar operações sustentáveis e gerar desenvolvimento econômico consistente.

Sua atuação demonstra padrão elevado de desempenho, liderança empresarial consolidada, inovação estratégica e capacidade comprovada de geração de impacto regional — características que extrapolam o exercício ordinário da atividade empreendedora.

Entendo que o conjunto de suas realizações evidencia enquadramento plenamente compatível com os critérios de habilidade extraordinária previstos para o visto O-1, especialmente no que se refere a protagonismo no setor, reconhecimento regional, papel de liderança e contribuição substancial ao desenvolvimento econômico.

Estou convicto de que sua atuação nos Estados Unidos representará contribuição relevante ao ambiente empresarial americano, promovendo intercâmbio de conhecimento, inovação e fortalecimento de conexões internacionais.

Diante do exposto, manifesto meu total e institucional apoio à aprovação do pedido de visto O-1 de Aécio Flávio Bousfield Neto, colocando-me à disposição para eventuais esclarecimentos adicionais.

Atenciosamente,

At 40 years old I take great pride in my professional career, in the choices I have made As a public servant, and in my family. I am married, a family man, and hold a degree in Public Administration. I currently serve as President of the São José City Council. I was a public employee of the Municipal Government, having begun my career in 2001.

I served as Secretary of Administration, Secretary of Transportation, Chief of Staff, Secretary of Communications, Secretary of Government, and Secretary of Economic Development, Science, and Technology – a position

I held until April 2012, coordinating, for example, the implementation of São José Digital City Project, which provided the people of São José with more than 116 completely free Internet access points. In 2013 I also assumed the position of Executive Secretary for Urban Development and Public Services, where I worked on modernizing processes and ensuring transparency in all acts throughout their processing.

My political career began in 2006. I ran in the 2008 elections and received a significant 1,770 votes, which allowed me to attain the position of Alternate Councilor. In October 2012, I was elected City Councilor of São José for the 2013–2016 legislative term, representing the PMDB, with 2,547 votes. I was also elected to serve as Second Secretary of the Presiding Board of the City Council and as President of the Standing Committee on Finance and Budget for the 2013/2014 legislative biennium.

During the same period, I served as President of two Special Committees—one for the purpose of drafting the bill establishing the Municipal Council for Animal Welfare and Public Policies for Animal Protection, and another whose purpose was to seek solutions for the situation of companies located in the Industrial Areas of Forquilhas and Sertão do Maruim.

In the 2016 election, I was reelected City Councilor, also representing the PMDB, with 2,313 votes, for the 2017–2020 legislative term. In 2019, I was chosen to serve as President of the City Council for the 2019/2020 biennium.

During my term as a City Councilor, I authored numerous bills, requests, opinions, and motions. As President of the City Council, I consistently advocated for dialogue and implemented strategic planning that allowed me to modernize processes and infrastructure and, above all, ensure efficiency and productivity combined with the responsible use of public funds.

abril de 2012, coordenando, por exemplo, a implantação do Projeto São José Cidade Digital, levando à população de São José mais de 116 pontos de acesso à Internet de forma totalmente gratuita. Em 2013 assumi ainda assumi a Secretaria Executiva de Urbanismo e Serviços Públicos, onde atuei na modernização dos processos e na transparência de todos os atos durante a tramitação.

Minha carreira política teve início em 2006. Disputei as eleições de 2008, obtendo significativos 1.770 votos que lhe permitiu alcançar a posição de Suplente. Em outubro de 2012 fui eleito Vereador de São José, pelo PMDB com 2.547 votos, para a Legislatura 2013/2016, também sendo eleito para ocupar os cargos de 2.º Secretário na Mesa Diretora da Câmara e de Presidente da Comissão Permanente de Finanças e Orçamento para o biênio legislativo de 2013/2014.

No mesmo período fui Presidente de duas Comissões Especiais - uma com a finalidade de elaborar Projeto de Lei que cria o Conselho Municipal do Bem-Estar Animal e das Políticas Públicas de Proteção Animal, e outra, cujo objeto era buscar soluções para a situação das empresas situadas nas Áreas Industriais de Forquilhas e Sertão do Maruim.

Na eleição de 2016, fui reeleito Vereador, também pelo PMDB com 2.313 votos, para a Legislatura 2017/2020. Em 2019, fui escolhido para ser o presidente da Câmara, no Biênio 2019/2020.

No exercício do mandato de Vereador fui autor de inúmeros projetos de lei, requerimentos, pareceres e moções. Na presidência da Câmara, defendi o diálogo sempre e implantei um planejamento estratégico que me permitiu modernizar processos e infraestrutura e, acima de tudo, garantir eficiência e produtividade aliadas à economia do dinheiro público.

São José, February 24, 2026.

DECLARATION

To whom it may concern,

I, Matson Luis Cé, City Councilor of the Municipality of São José, State of Santa Catarina, elected in the 2020 municipal election with 2,123 votes and reelected in the 2024 election, holding a law degree from UNISUL and a postgraduate degree in Tax Law, currently serving as President of the Presiding Board of the City Council of São José, hereby present this institutional statement regarding the professional performance of Mr. Aécio Flávio Bousfield Neto**.**

Throughout my career in public administration—including as head of the Municipal Departments of Planning, Revenue, Finance, and Urban Development and Public Services (SUSP), as well as in my work with the Legislative Assembly of the State of Santa Catarina—I have had direct contact with economic indicators, local business performance, revenue impact, and the structured development of the municipality's business environment.

In this context, it is possible to state, based on a practical analysis of the municipality's economic dynamics, that Mr. Aécio Flávio Bousfield Neto belongs to a limited group of business leaders whose performance exceeds the ordinary standard observed in the regional scenario.

I had the opportunity to meet him personally during the Ceremonial Session for the presentation of the Adroaldo Pedro Cassol Entrepreneurial Merit Medal, held on March 11, 2025, on which occasion he was officially recognized by the Municipal Legislative Branch for his tangible contribution to the economic development of São José. However, the significance of his work had already been evident beforehand through the consolidation of his business activities, his capacity for structured business expansion, and the economic influence he has exerted in the region.

His career demonstrates distinguished business leadership, strategic management focused on structured expansion, a concrete contribution to the local economy, public recognition through a formal legislative honor, and a prominent position within the regional business sector.

Based on the experience I have accumulated in public administration and on my analysis of the municipal economic environment, I can state that Mr. Aécio does not fit the profile of an ordinary businessperson. His career demonstrates

consistent performance, capacity for economic influence, and institutional recognition, all of which are elements that reflect professional distinction.

I understand that professionals with this level of organization, leadership, and productive impact maintain such standards regardless of the jurisdiction or market in which they operate.

I declare that this statement reflects my institutional and professional assessment, and I remain available to provide any additional clarification if necessary.

Matson Luis Cé

President of the Presiding Board

City Council of São José – SC

I, André Vinícius Inacio Penna Mello, telephone number 415 425-2508, mailing address P.O. Box 90487, San Diego, CA 92169, certify that the professional translation of this document from Portuguese to English has been performed by myself, a qualified translator fluent in both languages, and that the following is an accurate and complete translation of the document.

Date: March 9, 2026.

São José, 24 de fevereiro de 2026.

DECLARAÇÃO

A quem possa interessar,

Eu, Matson Luis Cé**,** Vereador do Município de São José, Estado de Santa Catarina, eleito no pleito municipal de 2020 com 2.123 votos e reeleito no pleito de 2024, graduado em Direito pela UNISUL e pós-graduado em Direito Tributário, atualmente exercendo a função de Presidente da Mesa Diretora da Câmara Municipal de São José, apresento a presente manifestação institucional acerca da atuação profissional do Sr. Aécio Flávio Bousfield Neto**.**

Ao longo de minha trajetória na administração pública — inclusive à frente das Secretarias Municipais de Planejamento, Receita, Finanças e Urbanismo e Serviços Públicos (SUSP), bem como em atuação junto à Assembleia Legislativa do Estado de Santa Catarina — tive contato direto com indicadores econômicos, desempenho empresarial local, impacto arrecadatório e desenvolvimento estruturado do ambiente de negócios do município.

Nesse contexto, é possível afirmar, com base em análise prática da dinâmica econômica municipal, que o Sr. Aécio Flávio Bousfield Neto integra um grupo restrito de empresários com atuação acima do padrão ordinário observado no cenário regional.

Tive a oportunidade de conhecê-lo pessoalmente durante a Sessão Solene de entrega da Medalha Mérito Empreendedor Adroaldo Pedro Cassol, realizada em 11 de março de 2025, ocasião em que foi oficialmente reconhecido pelo Poder Legislativo Municipal por sua contribuição objetiva ao desenvolvimento econômico de São José. Entretanto, a relevância de sua atuação já era perceptível anteriormente, por meio da consolidação de suas atividades empresariais, da capacidade de expansão estruturada de negócios e da influência econômica exercida na região.

Sua trajetória evidencia liderança empresarial diferenciada, gestão estratégica voltada à expansão estruturada, contribuição concreta à economia local, reconhecimento público por meio de homenagem legislativa formal e posição de destaque no setor empresarial regional.

Com base na experiência acumulada na gestão pública e na análise do ambiente econômico municipal, posso afirmar que o Sr. Aécio não se enquadra no perfil empresarial comum. Sua trajetória demonstra desempenho consistente,

capacidade de influência econômica e reconhecimento institucional, elementos que evidenciam distinção profissional.

Entendo que profissionais com esse nível de organização, liderança e impacto produtivo mantêm tais padrões independentemente da jurisdição ou do mercado em que atuem.

Declaro que esta manifestação reflete minha avaliação institucional e profissional, permanecendo à disposição para eventuais esclarecimentos adicionais.

WallStreetIA

Your Quant Fund in the American Market

Welcome to WallStreetIA

WallStreet IA is an investment fund that uses advanced trading and risk management techniques, validated by high-performance traders, to ensure greater consistency in the market. Our automations autonomously operate the index of one of the most liquid markets in the world, NASDAQ, detecting patterns, identifying trends, and executing systematic actions to optimize results, without human interference, eliminating emotional factors.

Through advanced systems and real-time analysis, each operation follows a completely automated approach, ensuring consistency, security, and efficiency at all stages.

Welcome to WallStreetIA, where automation and advanced analysis transform data into strategic decisions in the financial market.

Made with GAMMA

Who We Are

WallStreet IA is a company specializing in the development of automated investment funds for the American financial market. We use artificial intelligence for data analysis, allowing the identification of relevant patterns and trends. The operations, executed based on systematic decisions and mathematically validated strategies, are performed by Nasdaq 1.0, our high-performance automation.

Combining cutting-edge technology with a systematic approach and rigorous supervision, we follow the global trend in which automated systems execute more than 70% of orders in the American market. Each operation is monitored daily, ensuring efficiency and adaptability to market changes.

Our differential lies in the ability to convert detailed data into strategic insights, creating optimized and accessible investment opportunities. At WallStreet IA, we offer a solution that combines artificial intelligence with proven performance to maximize the results for our investors.

Made with GAMMA

NASDAQ 1.0 – The consistent automation

The Nasdaq 1.0 is the automation created by WallStreet IA to operate the Nasdaq index, using artificial intelligence to identify patterns and execute strategies with precision. Designed to diversify investments among the 100 largest non-financial companies in the USA, it delivers efficiency, consistency, and proven results, with more than 700% profit in backtests and approximately 40% profitability in real operations in the first year (February to December).

Made with GAMMA

MetaTrader 5: Our development environment

Our automations are designed exclusively to operate on MetaTrader 5 (MT5), one of the most advanced and popular trading platforms in the global financial market. This integration ensures high precision, execution speed, and an optimized experience for our investors.

Why use automations on MT5?

- **Fast and Precise Execution:** Orders are processed instantly to take advantage of the best opportunities.
- **Advanced Analysis:** Powerful tools to support more assertive decisions.
- **Diversification:** Operations in multiple markets, such as stocks, forex, and indices.
- **Uninterrupted Automation:** Optimized strategies that eliminate emotional interference.

Combining the power of MT5 with our solutions, we offer a robust and reliable experience to maximize your results. At WallStreet IA, our mission is to ensure that each operation is conducted with excellence and precision.

Our History

Our project was born from several disastrous experiences with third-party automations that did not deliver what they promised. Motivated by this reality, we created WallStreet IA and dedicated more than a year to the development of a unique automation, built from scratch, to offer a safe and consistent solution. Our objective is to deliver profitability superior to fixed income, combining trust and performance to transform the experience of our clients.

The project began with a clear goal: to create an automation that, in the medium and long term, not only avoided losses but delivered results superior to fixed income, seeking at least double the profitability. From the first version, we exceeded all expectations, reaching 4x the profitability of fixed income. Today, our fund presents an impressive backtest profitability of approximately 8x in the period from 2021 to February 2024. In a real account, we reached the incredible mark of 38.32% from February to November 2024.

This difference between the average profitability and the current results reflects the nuances of the market, such as news and external factors that directly influence performance. Even so, our commitment is to deliver consistency and exceed expectations, even in challenging scenarios.

Made with GAMMA

Our Team

WallStreet IA was born from the union of four specialists from different and, at the same time, complementary areas, with the goal of revolutionizing investments through automation and artificial intelligence.

Aécio Bousfield

The strategist, responsible for the conception of the idea, entrepreneur, uniting market vision, innovation, and business structuring. He works in the expansion of the company, which integrates technology and operation with a focus on profitable and safe automations.

Thiago Rocha

The manager, with training in graphic design focused on analysis and management and also in law. He has almost 20 years of experience in management and 5 years in the trading market, integrating strategic vision and organization.

Leandro Natal

The programmer, with more than 20 years of experience in software development and participation as a partner in large companies, brings 3 years of practice in trading, offering the technological foundation for our automated solutions.

Erickson Cordero

Main trader with years of experience in the financial market, being consistent in recent years and responsible for the strategies of the operations.

WallStreet IA is the result of this convergence of talent, innovation, and commitment, becoming a reference in investment automation with solid and consistent results.

Extraordinary Performance in Backtest Report

1

January 2021

An initial investment of US$1,000 was considered for comparative purposes.

2

November 2024

The investment generated a profit of 751.16%, totaling US$8,511.56.

Made with GAMMA

Real Fund Performance

1

February 2024

An initial capital of US$ 1,026.62 was invested and began operations in a real account.

2

First Semester

The investment generated a profit of 19.38% accumulated in the period.

3

November 2024

The automation already has 32 clients with total invested capital of almost 1 million reais, reaching profitability of more than 38% in the period.

Made with GAMMA

NASDAQ Trading

Why Trade NASDAQ?

Because it is one of the largest and most liquid stock exchanges in the world, the NASDAQ 1.0 automation was designed for this asset.

Why the Nasdaq Index?

Because it comprises the 100 largest non-financial companies listed on the exchange; which reduces the impact of possible individual bankruptcies, providing greater diversification compared to investing in a single company.

Does NASDAQ 1.0 depend on the appreciation of the asset?

While NASDAQ, in July 2024, had a loss of 3.64%, WallStreet IA obtained a real gain of 3.31%.

Made with GAMMA

Fund Performance Highlights

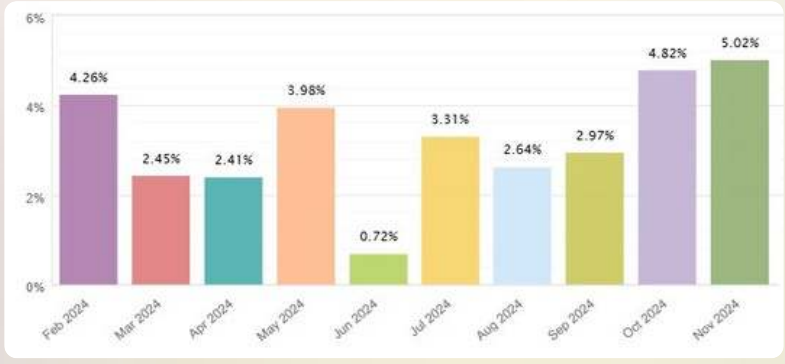

Real Fund Gain from February to November	More than 38.00% on the initial capital in 10 months of operation.
NASDAQ Index Profitability	The profitability for the same period as the fund, 10 months, is 22.7%.
Project and Operation Time	The project began at the end of 2022 and entered into real account operation in February 2024.
Fund vs. Backtest	The automation presents profit and profitability equivalent to the real account, demonstrating the transparency and seriousness of the tests performed.

Made with GAMMA

Project Phases

Beginning (2022)	Our project started with an idea and the combined expertise of three great professionals.
Initial Phase – Development (2022–2023)	Nasdaq 1.0 was developed; an automation aimed at a 4x return over a 6-year period; there were still capital losses.
Phase 2 – Testing (2023–2024)	Several months of testing were conducted on DEMO and Real accounts to analyze effectiveness and consistency in relation to backtests.
Phase 3 – Go Live with verifiers (2024)	The release of the fund to the general public focused on people who have their own capital for investment in variable income and an appetite for risk. Without a focus on expansion or raising large numbers of investors.
Phase 4 – Expansion and scalability (2025)	The planning and development of the entire project converge to this moment, where the fund has great scalability, both financially and in the number of investors.

Bem Vindo à WallStreetIA

A WallStreet IA é um fundo de investimentos que utiliza avançadas técnicas de trading e gerenciamento de risco, validadas por traders de alta performance, para garantir maior consistência no mercado. Nossas automações operam de forma autônoma o índice de um dos mais liquidos mercados mundo, a NASDAQ, detectando padrões, identificando tendências e executando ações sistemáticas para otimizar resultados, sem interferência humana, eliminando fatores emocionais.

Por meio de sistemas avançados e análise em tempo real, cada operação segue uma abordagem completamente automatizada, garantindo consistência, segurança e eficiência em todas as etapas.

Bem-vindo à WallStreet IA, onde a automação e a análise avançada transformam dados em decisões estratégicas no mercado financeiro.

Made with GAMMA

Quem Somos

A **WallStreet IA** é uma empresa especializada no desenvolvimento de fundos de investimento automatizados para o mercado financeiro americano. Utilizamos inteligência artificial para análise de dados, permitindo identificar padrões e tendências relevantes. As operações, executadas com base em decisões sistemáticas e estratégias matematicamente validadas, são realizadas pela Nasdaq 1.0, nossa automação de alta performance..

Combinando tecnologia de ponta com uma abordagem sistemática e supervisão rigorosa, seguimos a tendência global em que mais de 70% das ordens no mercado americano são executadas por sistemas automatizados. Cada operação é acompanhada diariamente, garantindo eficiência e adaptabilidade às mudanças do mercado.

Nosso diferencial está na habilidade de converter dados detalhados em insights estratégicos, criando oportunidades de investimento otimizadas e acessíveis. Na WallStreet IA, oferecemos uma solução que une inteligência artificial e performance comprovada para maximizar os resultados de nossos investidores.

Made with GAMMA

NASDAQ 1.0 - A automação consistente

A Nasdaq 1.0 é a automação criada pela WallStreet IA para operar no índice Nasdaq, utilizando inteligência artificial para identificar padrões e executar estratégias com precisão. Projetada para diversificar investimentos entre as 100 maiores empresas não financeiras dos EUA, entrega eficiência, consistência e resultados comprovados, com mais de 700% de lucro em backtests e aproximadamente 40% de rentabilidade em operações reais no primeiro ano (Fevereiro à Dezembro)

Made with GAMMA

MetraTrader 5: Nosso ambiente de desenvolvimento

Nossas automações são projetadas exclusivamente para operar no **MetaTrader 5 (MT5)**, uma das plataformas de negociação mais avançadas e populares no mercado financeiro global. Essa integração garante alta precisão, velocidade de execução e uma experiência otimizada para nossos investidores.

Por que usar automações no MT5?

- **Execução Rápida e Precisa:** Ordens processadas instantaneamente para aproveitar as melhores oportunidades.
- **Análise Avançada:** Ferramentas poderosas para suportar decisões mais assertivas.
- **Diversificação:** Operações em múltiplos mercados, como ações, forex e índices.
- **Automação Ininterrupta:** Estratégias otimizadas que eliminam interferências emocionais.

Combinando o poder do MT5 com nossas soluções, oferecemos uma experiência robusta e confiável para maximizar seus resultados. Na WallStreet IA, nossa missão é garantir que cada operação seja conduzida com excelência e precisão.

Nossa História

Nosso projeto nasceu de diversas experiências desastrosas com automações de terceiros, que não entregavam o que prometiam. Motivados por essa realidade, criamos a WallStreet IA e dedicamos mais de um ano ao desenvolvimento de uma automação única, construída do zero, para oferecer uma solução segura e consistente. Nosso objetivo é entregar rentabilidade superior à renda fixa, aliando confiança e desempenho para transformar a experiência de nossos clientes.

O projeto começou com uma meta clara: criar uma automação que, no médio e longo prazo, não apenas evitasse perdas, mas entregasse resultados superiores à renda fixa, buscando pelo menos o dobro de rentabilidade. Desde a primeira versão, superamos todas as expectativas, alcançando 4x a rentabilidade da renda fixa. Hoje, nosso fundo apresenta uma rentabilidade de backtest impressionante, de aproximadamente 8x no período de 2021 a fevereiro de 2024. Em conta real, atingimos a incrível marca de **38,32% de fevereiro a novembro de 2024**.

Essa diferença entre a rentabilidade média e os resultados atuais reflete as nuances do mercado, como notícias e fatores externos que influenciam diretamente o desempenho. Ainda assim, nosso compromisso é entregar consistência e superar expectativas, mesmo em cenários desafiadores.

Made with GAMMA

Nossa Equipe

A WallStreet IA nasceu da união de quatro especialistas de áreas diferentes e, ao mesmo tempo, complementares, com o objetivo de revolucionar investimentos por meio de automação e inteligência artificial.

Aécio Bousfield

O estrategista, responsável pela concepção da Ideia, empreendedor, unindo visão de mercado, inovação e estruturação de negócios. Atua na expansão da empresa, ao qual integra tecnologia e operação com foco em automações rentáveis e seguras.

Thiago Rocha

O **gestor**, com formação em design gráfico focado em análise e gestão, e também em direito. Possui quase 20 anos de experiência em gestão e 5 anos no mercado de trades, integrando visão estratégica e organização.

Leandro Natal

O **programador**, com mais de 20 anos de experiência em desenvolvimento de software e participação como sócio em grandes empresas, traz 3 anos de prática em trading, oferecendo a base tecnológica para nossas soluções automatizadas.

Erickson Cordero

Trader principal com anos de experiência no mercado financeiro, sendo consistente nos últimos anos e responsável pelas estratégias das operações.

A WallStreet IA é o resultado dessa convergência de talento, inovação e compromisso, tornando-se uma referência em automação de investimentos com resultados sólidos e consistentes.

Made with GAMMA

Desempenho Extraordinário em relatório de backtest

1

Janeiro 2021

Foi considerado um investimento inicial de US$ 1.000 para efeito comparativo.

2

Novembro 2024

O investimento gerou um lucro de **751,16%**, totalizando U$ **8.511,56**.

Made with GAMMA

Desempenho do fundo real

1

Fevereiro 2024

Um capital inicial de US$ 1.026,62 foi aportado e iniciou as operações em conta real.

2

Primeiro Semestre

O investimento gerou um lucro de 19,38% acumulado no período

3

Novembro 2024

A Automação já possui 32 clientes com capital total investido de quase 1 milhão de reais; atingindo a rentabilidade de mais de 38% no período.

Made with GAMMA

Operações na NASDAQ

Por que Operar NASDAQ?

Por ser uma das maiores e mais líquidas bolsas de valores do mundo, a automação NASDAQ 1.0, foi projetada para este ativo.

Por que o Índice Nasdaq?

Porque é o conjuntos das 100 maiores empresas não financeiras listadas na bolsa; o que reduz o impacto de eventuais quebras individuais, proporcionando maior diversificação em comparação com o investimento em uma única empresa.

A NASDAQ 1.0 depende da valorização do ativo?

Enquanto a NASDAQ, em julho de 2024, teve uma perda de 3,64%, a WallStreet IA obteve um ganho real de 3,31%.

Made with GAMMA

Destaques do Desempenho Fundo

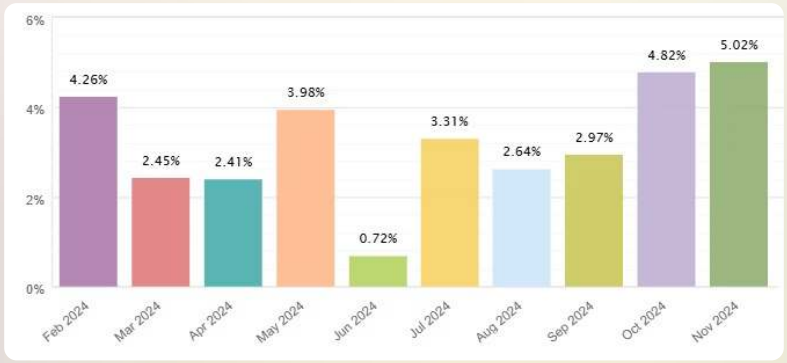

Ganho Real do Fundo de Fevereiro à Novembro	Mais de 38,00% sobre o capital inicial em 10 meses de operação.
Rentabilidade do índice NASDAQ	A rentabilidade para o mesmo período do fundo, 10 meses, é de 22,7%.
Tempo de Projeto e de Operação	O projeto iniciou final de 2022 e entrou em operação em conta real em Fevereiro de 2024
Fundo vs Backtest	A automação apresenta um lucro e rentabilidade equivalente à conta real, demonstrando a transparência e seriedade dos testes realizados

Made with GAMMA

Fases do projeto

Começo (2022)	Nosso projeto começou com uma ideia e união da expertise de três grandes profissionais
Fase Inicial - Desenvolvimento (2022-2023)	Foi desenvolvido o Nasdaq 1.0; automação que buscava uma rentabilidade de 4x em um período de 6 anos; ainda haviam perdas de capital ;
Fase 2 - Testes (2023-2024)	Foi realizado alguns meses de teste em conta DEMO e conta Real, para analisar a eficácia e sua consistência em relação aos backetstes
Fase 3. Go Live com validadores (2024)	A liberação do fundo para o público em geral, com foco em pessoas que possuem capital próprio para investimento em renda variável e apetite para riscos. Sem foco na expansão ou capitação de grande números de investidos.
Fase 4. Expansão e escalabilidade (2025)	O Planejamento e desenvolvimento de todo o projeto convergiu para este momento, onde o fundo possui grande escalabilidade, tanto financeiro quanto de investidores.

Made with GAMMA

Tecnologia de Ponta e Melhorias constantes

Algoritmos Avançados

Analisam e executam transações no mercado financeiro.

Inteligência Artificial

Analisa os dados do mercado, gera documentos e relatórios para análise de melhorias; servindo assim de base para as contínuas melhorias.

Atualizações constantes

Inclusive, as últimas atualizações aumentaram em quase 50% a rentabilidade média mensal em conta real. Além de outras melhorias de estabilidade e segurança que são necessárias para a constante evolução e robustez do fundo.

1. WallStreetIA/DNA Invest package with evidence of real impact:
   1.1. ○ number of users/clients,
   1.2. ○ revenue/subscriptions (if any),

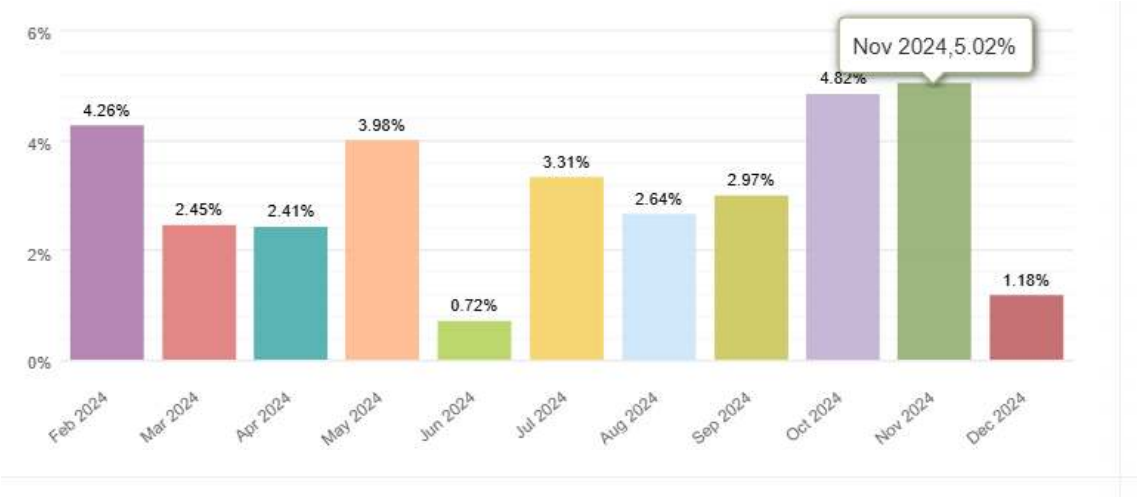

1.3 performance reports (including context and methodology)

The year 2024 was marked by significant instability in global markets, with high volatility especially during periods such as June (lowest return, 0.72%) and November (peak return, 5.02%). Despite this, the **automation of the WallStreetIA system demonstrated robustness by adapting risk management**, maintaining consistency, and preserving capital, delivering returns above the average of quantitative funds.

The system avoids overleveraging during periods of uncertainty and dynamically adjusts entry filters, prioritizing capital preservation rather than pursuing aggressive profits — which explains the more conservative results in months such as June and December.

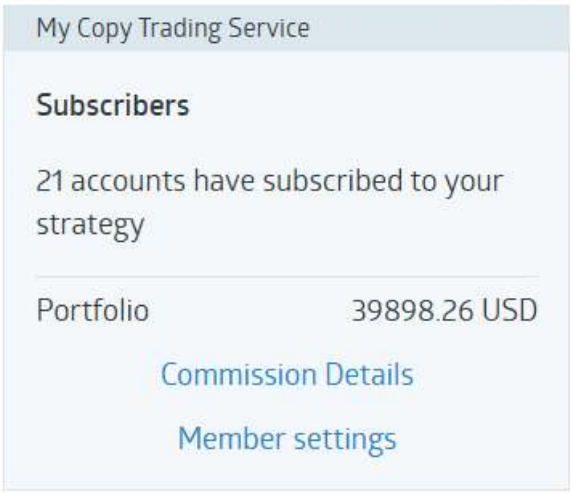

1.4 investor presentations, emails, pitch decks with dates, demos, releases, screenshots with dates

https://gamma.app/docs/Bem-Vindo-a-WallstreetIA-i6c2rf0u5xsv8e2

Box 90487, San Diego, CA 92169, certify that the professional translation of this document from Portuguese to English has been performed by myself, a qualified translator fluent in both languages, and that the following is an accurate and complete translation of the document.

_____ **Date: March 9, 2026.**

1. Pacote WallStreetIA/DNA Invest com evidências de impacto real:
   1.1. ○ número de usuários/clientes,
   1.2. ○ receitas/assinaturas (se houver),

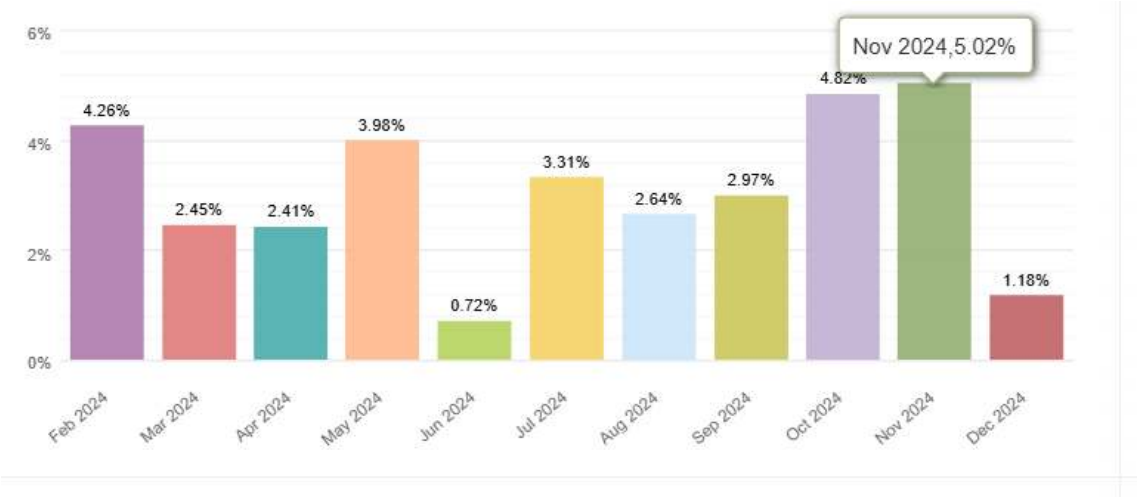

1.3 relatórios de performance (com contexto e metodologia)

O ano de 2024 foi marcado por grande instabilidade nos mercados globais, com alta volatilidade especialmente em períodos como junho (retorno mais baixo, 0,72%) e novembro (pico de retorno, 5,02%). Apesar disso, a **automação do sistema WallStreetIA demonstrou robustez ao adaptar o gerenciamento de risco**, manter a consistência e preservar capital, entregando rentabilidade acima da média dos fundos quantitativos.

O sistema evita sobrealavancagem em momentos de incerteza e ajusta dinamicamente os filtros de entrada, priorizando proteção patrimonial em vez de buscar lucros agressivos — o que explica resultados mais conservadores em meses como junho e dezembro.

1.4 apresentações a investidores, emails, pitch decks com data, demos, releases, screenshots com data

Itapema, 02/24/26

To the Honorable Immigration Officer,

Having built and managed a significant real estate portfolio in Southern Brazil, I am writing to provide my professional account of Mr. Aécio Flávio Bousfield Neto, with whom I have maintained a professional relationship for over five years and in whom I have made a formal financial investment.

My name is Yuri Wolter Silva, residing in Itapema, Santa Catarina, Brazil. I come from a family with deep roots in the real estate and entrepreneurial sectors. My late father, Ayrton Justino Silva, began his career as a waiter at Hotel Plaza Itapema in the 1970s and went on to build one of the most recognized real estate businesses in the region, including the development of Victor Hugo Residence, a landmark project in Itapema that counted among its buyers the internationally renowned footballer Neymar Jr. Following my father's passing in March 2021, I became responsible for managing a significant portion of the family estate, which was valued at approximately R$ 350 million, divided among four heirs.

I first met Aécio through our shared participation in a BMW enthusiast group in Florianópolis, a community that brought together successful entrepreneurs and business leaders from the region. Over the years, I observed his professional conduct, his reputation among peers, and his consistent track record of building and managing high-performing businesses. This relationship, built on mutual respect and shared entrepreneurial values, led me to make a formal investment decision.

In 2023, I made a financial investment of approximately USD 220,000 in DNA Invest, a financial investment platform co-founded and led by Aécio. As someone who manages a substantial personal estate, I conduct thorough due diligence before committing capital to any venture. My decision to invest in DNA Invest was based on a careful evaluation of

the platform's structure, its underlying technology, and, most critically, the caliber of its leadership.

What distinguishes Aécio from other professionals in the financial technology and investment space is the originality of his approach. DNA Invest is not a conventional brokerage or investment advisory service. Aécio developed and implemented a proprietary automated trading system, the DNA Invest Nasdaq 1.0, designed to operate in the U.S. financial markets with a rules-based, algorithmic methodology. This system represents an original technical contribution: it was conceived, structured, and deployed by Aécio himself, combining his understanding of financial market dynamics with his expertise in technology and automation. The result is a platform that operates with a level of precision and risk discipline that is uncommon in the investment market.

Beyond the technology itself, what has impressed me most is Aécio's ability to manage a complex, multi-layered business operation with integrity and strategic clarity. He understands risk at a fundamental level, not just financial risk, but operational, reputational, and structural risk. This is the mindset of a true business leader, not simply a technician or a manager. His capacity to attract serious investors, structure a compliant and transparent operation, and deliver consistent results speaks to an extraordinary level of professional ability.

Since formalizing our partnership, the relationship has been solid, transparent, and professionally rewarding. I have full confidence in Aécio's leadership and in the direction of the venture. In my professional opinion, he is precisely the type of entrepreneur who should be leading expansion efforts into the United States, given his originality, discipline, and demonstrated success in complex business environments. The U.S. market will benefit from his expertise, his original methodologies, and his proven ability to build and lead high-performance business operations.

Please feel free to contact me if any additional information would be helpful.

Sincerely,

Yuri Wolter Silva

PENSANOEVENTO

São José, Santa Catarina, February 16, 2026.

To
the U.S. Citizenship and Immigration Services (USCIS).

Subject: Institutional Statement in Support of Aécio Flávio Bousfield Neto's O-1 Visa Petition

I, Michel da Silva Schlemper, Vice Mayor of the Municipality of São José, State of Santa Catarina, holding a degree in Public Administration and with an established career in the Municipal Legislative and Executive Branches, hereby express my institutional and unequivocal support for the petition for the granting of an O-1 visa on behalf of Aécio Flávio Bousfield Neto.

São José holds a strategic position in the Greater Florianópolis region, forming part of the State's largest urban hub and concentrating intense economic, business, and technological activity. It is a highly competitive environment in which only entrepreneurs with a distinctive vision, strong management capacity, and proven impact are able to establish a position of regional prominence.

In this context, I have followed Aécio Flávio Bousfield Neto's career for many years, and he is a professional who has consistently distinguished himself in the local and regional entrepreneurial arena.

Among his most significant achievements, I highlight:

- The creation of Angra Restaurant, a business venture that has become a regional gastronomic benchmark, contributing to the advancement of the food service sector and to the strengthening of tourism and the creative economy. As a concrete example of its impact, this year the city hosted its first large-scale New Year's Eve celebration, expanding the official events calendar and significantly stimulating the local economy;

- The conception and establishment of Arena Ibiza, a beach sports complex with more than 17 courts, a facility that has already hosted major circuits and tournaments, promoting sports, sports tourism, and social integration, while also generating direct and indirect economic impact in the region.

- More recently, he inaugurated yet another business venture which is, without a doubt, another major asset to our city: Sky Park, an event center with capacity for 7,000 people for the hosting of nationally recognized concerts and corporate events.

It is important to emphasize that, in addition to these highly visible and impactful ventures, Aécio also leads other businesses and entrepreneurial initiatives that likewise stand out in the region, further demonstrating his ongoing ability to identify strategic opportunities, structure sustainable operations, and generate consistent economic development.

His work demonstrates a high standard of performance, established business leadership, strategic innovation, and a proven ability to generate regional impact—characteristics that go beyond the ordinary exercise of entrepreneurial activity.

I understand that the body of his achievements demonstrates a profile fully consistent with the extraordinary ability criteria established for the O-1 visa, especially with respect to prominence in his sector, regional recognition, leadership role, and substantial contribution to economic development.

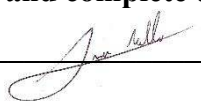

I am convinced that his work in the United States will represent a meaningful contribution to the American business environment, promoting knowledge exchange, innovation, and the strengthening of international connections.

In light of the foregoing, I hereby express my full institutional support for the approval of Aécio Flávio Bousfield Neto's O-1 visa petition and place myself at your disposal for any additional clarification that may be required.

Sincerely,

----//signature//----

Assunto: Manifestação Institucional de Apoio ao Pedido de Visto O-1 – Aécio Flávio Bousfield Neto

Eu, Michel da Silva Schlemper, Vice-Prefeito do Município de São José, Estado de Santa Catarina, graduado em Gestão Pública e com trajetória consolidada no Poder Legislativo e Executivo Municipal, venho, por meio desta, manifestar meu apoio institucional e inequívoco ao pedido de concessão do visto O-1 em favor de Aécio Flávio Bousfield Neto.

Ao longo de minha atuação pública — como Vereador por dois mandatos, Presidente da Câmara Municipal, Secretário em pastas estratégicas e, em diversas ocasiões, Chefe do Poder Executivo de forma interina — acompanhei de perto o desenvolvimento do ambiente empreendedor de nosso município, que hoje figura entre os mais dinâmicos de Santa Catarina.

São José ocupa posição estratégica na região da Grande Florianópolis, compondo o maior polo urbano do Estado e concentrando intensa atividade econômica, empresarial e tecnológica. Trata-se de um ambiente altamente competitivo, no qual apenas empreendedores com visão diferenciada, elevada capacidade de gestão e impacto comprovado conseguem consolidar protagonismo regional.

Nesse contexto, acompanho há muitos anos a trajetória de Aécio Flávio Bousfield Neto, profissional que se destaca de forma consistente no cenário empreendedor local e regional.

Entre suas realizações de maior relevância, destaco:

• A criação do Restaurante Angra, empreendimento que se consolidou como referência gastronômica regional, contribuindo para a valorização do setor de alimentação, para o fortalecimento do turismo e da economia criativa. Como exemplo concreto de seu impacto, neste ano foi realizada a primeira festa de Réveillon de grande porte na cidade, ampliando o calendário oficial de eventos e movimentando significativamente a economia local;

• A idealização e implantação da Arena Ibiza, arena de esportes de areia com mais de 17 quadras, estrutura que já sediou circuitos e torneios de grande porte, fomentando o esporte, o turismo esportivo e a integração social, além de gerar impacto econômico direto e indireto na região.

• Recentemente a inauguração de mais um empreendimento, que sem dúvida é mais uma grande aquisição para nossa cidade, a Sky Park um centro de eventos com capacidade para 7 mil pessoas para realização de shows nacionais e eventos corporativos.

Importante ressaltar que, além desses empreendimentos de grande visibilidade e impacto, Aécio também está à frente de outros negócios e iniciativas empresariais que igualmente se destacam na região, reforçando sua capacidade contínua de identificar oportunidades estratégicas, estruturar operações sustentáveis e gerar desenvolvimento econômico consistente.

Sua atuação demonstra padrão elevado de desempenho, liderança empresarial consolidada, inovação estratégica e capacidade comprovada de geração de impacto regional — características que extrapolam o exercício ordinário da atividade empreendedora.

Entendo que o conjunto de suas realizações evidencia enquadramento plenamente compatível com os critérios de habilidade extraordinária previstos para o visto O-1, especialmente no que se refere a protagonismo no setor, reconhecimento regional, papel de liderança e contribuição substancial ao desenvolvimento econômico.

Estou convicto de que sua atuação nos Estados Unidos representará contribuição relevante ao ambiente empresarial americano, promovendo intercâmbio de conhecimento, inovação e fortalecimento de conexões internacionais.

Diante do exposto, manifesto meu total e institucional apoio à aprovação do pedido de visto O-1 de Aécio Flávio Bousfield Neto, colocando-me à disposição para eventuais esclarecimentos adicionais.

Atenciosamente,

MICHEL DA SILVA SCHLEMPER

RÔGGA

Joinville – SC, 02/13/2026

Vilson Buss

President | Rôgga Empreendimentos

To whom it may concern,

I am a business administrator with an Executive MBA from Fundação Getúlio Vargas (FGV). Since 2006, I have been a founding partner and President of Rôgga Empreendimentos, a leading construction and development firm in Southern Brazil. Rôgga currently has approximately 6,000 units under construction across six cities, employs over 1000 direct staff, and has benefited more than 12,000 families over the last 20 years. On December 7, I was honored by the Legislative Assembly of the State of Santa Catarina (ALESC) for the relevant services provided to the regional economy.

I was introduced to Aécio Flávio Bousfield Neto through mutual friends and shared circles in Brazil. Over time, I have had the opportunity to observe his trajectory as an entrepreneur and the seriousness with which he builds and manages businesses.

As the leader of a company with a strong focus on innovation, Rôgga has received industry recognition, including awards from ABRAINC and CBIC, and is the only construction company in Santa Catarina to appear in the Top 25 Champions of Innovation ranking by Revista Amanhã. I am attentive to the type of technology leadership required to support growth and operational excellence. In my view, Aécio's profile is not comparable to that of a typical IT consultant. He combines an entrepreneurial mindset with strategic management discipline, and he approaches technology as a core driver of risk control, operational efficiency, and scalability.

Rôgga Empreendimentos
Rua Dona Francisca, 8300, Ágora MOB, Sala 311 (3° andar) - Perini Business Park - Distrito Industrial
Joinville/SC - 89219-600
www.rogga.com.br

RÔGGA

Companies of Rôgga's size face complex challenges in information security, data integrity, governance of critical systems, and the integration of multiple operational platforms. These demands require professionals who understand both the technical foundations and the

business consequences of technology decisions. Aécio is the type of professional who can translate technical requirements into structured, reliable, and business-oriented implementation.

Looking forward, Rôgga has an interest in expanding its operations internationally, including the possibility of establishing a presence in the United States. In this context, I view Aécio as a potential strategic partner. Additionally, as we advance these expansion plans, I would be interested in engaging with NexusTech Smart Solutions as a potential service provider and client relationship, particularly for strategic IT support, information security structuring, and guidance related to operational risk in an international expansion scenario.

Based on what I know of Aécio's reputation, integrity, and execution ability as an entrepreneur, I am confident he will bring strong value to any organization or market in which he operates.

USCIS Officer,

My name is Cristina de Matos. I hold a degree in Accounting from UNIVALI and have over two decades of professional experience in the accounting field. I am the owner of CONTAC Contabilidade Ltda., an accounting firm active since 2011, based in São José, Santa Catarina, Brazil. My practice focuses on fiscal and tax accounting, financial management, condominium accounting, construction sector accounting, and holding company structuring. I am a licensed professional with the Regional Accounting Council of Santa Catarina (CRC-SC) and a member of the Accountants Committee of AEMFLO.

I have known Aécio Flávio Bousfield Neto for over eight years. During this time, I have followed the creation and growth of most of his business ventures, both as a professional observer and as a client of several of his establishments.

I am a regular client of Arena Ibiza and Angra, two of Aécio's hospitality and entertainment businesses. Both establishments are widely recognized in the region for their high standards of service, operational consistency, and strong market positioning. Arena Ibiza is known for hosting large-scale events with excellent infrastructure and professional execution, while Angra has established itself as a premium dining and social venue with a loyal customer base and a reputation for quality and attention to detail.

From my perspective as a client and as a business owner myself, what stands out about Aécio's ventures is not just their commercial success, but the level of professionalism and strategic planning behind them. These are not casual operations; they reflect careful management, investment in infrastructure, and a clear understanding of customer experience and market positioning. The consistency with which these businesses operate, even in competitive and economically challenging environments, speaks to the quality of leadership and execution.

While I do not personally frequent all of Aécio's businesses due to personal preferences, I am aware of their strong reputations in the local market. They are well-known and respected within the business community.

I was pleased to learn that Aécio received the Medalha do Mérito Empreendedor Adroaldo Pedro Cassol from the City Council. In my view, this recognition was well-deserved. Aécio is a serious entrepreneur who has built multiple successful businesses, generated employment, contributed to the local economy, and maintained a strong

Cristina de matos

reputation for integrity and professionalism. The award reflects the impact he has had on the regional business environment.

Based on my experience with Aécio and my direct experience as a client of his businesses, I have full confidence in his ability to successfully establish and manage a technology-driven company in the United States. His track record demonstrates discipline, strategic thinking, and a commitment to excellence, qualities that will serve him well in any market.

Regards,

Cristina de Matos

- Gestão Financeira

Competências

Contabilidade Geral e Fiscal • Planejamento Tributário • Gestão Financeira • Contabilidade para Construção Civil • Contabilidade Condominial • Estruturação de Holdings • Gestão Empresarial

MEDhCIR

To the Distinguished Officers of the USCIS,

My name is Cláudio Manoel da Cruz, and I am the founder and CEO of MEDhCIR, a company established in 2001 with the mission of bringing the best and most innovative urological solutions to the Brazilian market. Over the past two decades, MEDhCIR has built a reputation as a reference in technology and innovation in the urology sector. We provide high-quality medical equipment and solutions, including laser systems, disposable materials, and digital flexible endoscopes, to hospitals and medical professionals across Brazil. Our credibility is rooted in ethical relationships, technical excellence, and a consistent commitment to patient safety and procedural efficacy.

I was introduced to Aécio Flávio Bousfield Neto through mutual professional contacts. Over time, I have come to know him as a serious, disciplined, and highly capable entrepreneur. What sets Aécio apart is his ability to combine strategic vision with operational execution. He does not simply manage businesses; he builds them with structure, foresight, and a clear understanding of risk and scalability.

As someone who has led a technology-driven company for over 20 years, I recognize the importance of having reliable partners who understand both the technical and business dimensions of complex operations. Aécio's background in technology, cybersecurity, and strategic management aligns with the type of leadership required in today's competitive and increasingly digital business environment.

I am currently exploring investment opportunities in the United States, particularly in technology-driven ventures that demonstrate strong leadership, clear business models, and scalable potential. Based on my knowledge of Aécio's track record and his approach to business, I see his U.S.-based company, NexusTech Smart Solutions LLC, as a compelling opportunity. I have a strong interest in becoming a potential investor in his venture, as I believe his expertise and execution capacity position the company for meaningful success in the U.S. market.

In my view, Aécio represents the type of entrepreneur who brings technical knowledge and the strategic discipline necessary to build sustainable, high-performing organizations. I am

MEDhCIR

confident that his presence in the United States will contribute positively to the technology and business sectors.

Please feel free to contact me if any additional information would be helpful.

Overview

MEDHCIR offers innovative urological solutions that promote patient health and well-being, enhancing safety, efficiency, and optimization in medical procedures. With more than 20 years of experience in the Brazilian market, we are a reference in technology and innovation in urology.

Our vision is to drive urological technology and raise standards of care in Latin America. The credibility of MEDHCIR was built through an ethical and responsible relationship with surgeon physicians and hospitals, reinforced by the trust of our partners. We offer specialized technical support and personalized service.

Our portfolio includes high-quality equipment and disposables for the urinary tract. We highlight:

Urolline Line, our own brand of flexible and disposable materials, including digital endoscopes, Ureteroscopes (Cystoscopes), sheaths (ClearPetra Ureteral Access), catheters (Double J | Ureteral ...)

I, Marina Viana Silva, telephone number 415 425-2508, mailing address P.O. Box 90487, San Diego, CA 92169, certify that I have performed the professional translation of this document from Portuguese to English, as a qualified translator fluent in both languages, and that the following is an accurate and complete translation of the document.

Visão geral

A MEDhCIR oferece soluções urológicas inovadoras para a saúde e bem-estar dos pacientes, promovendo segurança, eficiência e otimização em procedimentos médicos. Com mais de 20 anos de experiência no mercado brasileiro, somos referência em tecnologia e inovação na urologia.

Nossa visão é impulsionar a tecnologia urológica e elevar padrões de atendimento na América Latina. A credibilidade da MEDhCIR foi construída através de um relacionamento ético e responsável com médicos cirurgiões e hospitais, reforçada pela confiança dos nossos parceiros. Oferecemos suporte técnico especializado e atendimento personalizado.

Nosso portfólio abrange equipamentos e descartáveis de alta qualidade para o trato urinário. Destacamos:

⚕ Linha Urolline, nossa marca própria de materiais flexíveis e descartáveis, incluindo endoscópios digitais (Ureteroscópios, Cistoscópios), bainhas (ClearPetra, Acesso Ureteral), cateteres (Duplo J, Ureteral), fios
